JOSEPH HARRIS COMPANY, INC.  
MORETON FARM . . . . COLDWATER, NEW YORK

## DELIVERY OF SEEDS

All vegetable and flower seeds **in this price list** except **Peas, Beans, Sweet Corn and Spinach** will be sent prepaid by parcel post, express or freight **at our option**.

Peas, Beans, Sweet Corn and Spinach will not be sent prepaid unless they are included in any one order **to the value of \$20.00 or more**.

The above offer to pay transportation does not apply to Field and Grass seed, Potatoes, Onion Sets, Fertilizers, etc. Articles other than seeds listed in this catalogue are sent at **purchaser's expense** except where they are quoted "**Transportation paid.**"

Seeds ordered sent by express will be so sent at the purchaser's expense.

### About Ordering, Shipping, Etc.

Orders may be sent at any time and goods will be shipped at the time specified on the order.

Freight shipments are now handled by the railroads much more promptly than formerly and we advise having all heavy shipments (100 lbs. or more) sent in that way.

When ordering seeds shipped by freight or express please be sure to give the name of your nearest freight railroad station or express office if it is different from your postoffice address.

**25% of the value of the order must accompany all orders for goods shipped C.O.D.**

### Terms and Discounts

Our regular terms are **cash with order**. When cash is sent with order we allow a discount of 5% which may be deducted from the total amount of the order.

To gardeners of established credit and those who furnish us with satisfactory references we allow the following **time payments except on potatoes, field and grass seed, which are strictly cash with order**.

Bills for seeds, plants, etc., shipped after January 1st are due and payable *net* August 1st.

Bills for goods shipped after August 1st are due *net* December 1st.

### Conditions of Sale

We assume responsibility of the seeds, plants and bulbs we sell reaching the purchaser in good condition and should any seeds fail to grow under favorable circumstances, we will refund the money paid for them or replace them without charge **if notified at once**. However, in common with all responsible seedsmen, all our seeds, plants and bulbs are sold on the distinct understanding and with the agreement by the purchaser that we will not be responsible for any loss or damage that may accrue by reason of the failure of the seeds, plants or bulbs to grow or to be of the variety or quality offered. We will not accept or fill orders under any other conditions.

Dec. 1, 1934.

JOSEPH HARRIS COMPANY, Inc.

---

*"I have used Harris' Seeds for more than 40 years and find few equal and none better." W. P. Beard, King's Ferry, N. Y. May 2, 1934*

*"Kindly permit me to thank you for your prompt shipment and excellent packing. The shipment reached me today and at this writing all planted. Your Midseason peas and melons are wonderful." S. K. Pierce, Wilton, N. H. June 4, 1934*

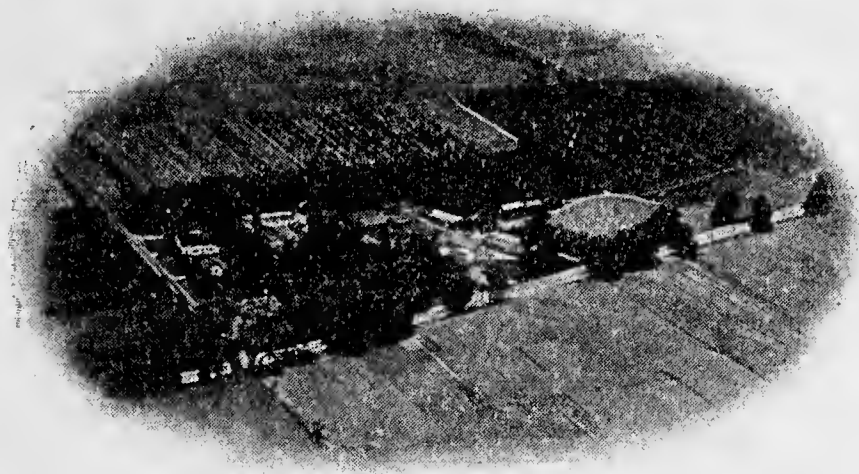

### Our General Retail Catalogue

Our general retail catalogue is issued in January. It contains other varieties of vegetable and flower seeds not listed in this Price List, together with more complete descriptions of the varieties listed here. Also a full line of garden accessories, fertilizers, insecticides, etc.

Your copy will be mailed to you as soon as issued. If you do not receive it, let us know. We will gladly send copies to your friends on request.

# JOSEPH HARRIS COMPANY, INC.

GROWERS OF HIGH-CLASS SEEDS  
COLDWATER, N. Y.

To our friends and customers:-

There is a real shortage this year in good seed of several important market garden vegetables, namely; sweet corn, cucumbers, onions and beets. I feel that this information should be passed on to you gardeners, so that you can plan the purchases of your seed requirements for the year to the best advantage.

There is no doubt that much inferior seed of these leading vegetables will be offered for sale so it is very important that you buy only from reliable well established and dependable seedsmen.

This year we were fortunate in having increased acreages planted, so that we will have nearly our usual supply of the improved stocks which we have sold in the past.

However, we anticipate a greater demand for our varieties and for this reason advise our customers to place their seed orders early.

Sincerely yours,

*M. S. Harris*  
President

Dec. 1, 1934

 **BE SURE NAME AND ADDRESS IS ON THE ORDER BLANK.**

Picking tomatoes for seed on Moreton Farm

## CROPS ON MORETON FARM

We have had very dry weather during the past spring and summer but in the whole our seed crops here in Northern New York have come through in very good shape. The fine fall weather has given our numerous crops of Sweet Corn a chance to mature fully and the seed is showing its usual strong vitality. This is in contrast with the West where, we understand that due to the severe drought much of the seed grown there will be poor and of low germination. Our other crops such as Model Parsnip, Blue Hubbard and Straightneck Squash, Detroit Dark Red Beets, Tomatoes and Peppers have turned out remarkably well.

Market gardeners must make every dollar count and we feel that this year we can give you more value for your money than ever before.

## Quick Service

You can be assured when you send us an order that you will not have to wait and wait for your seeds. During the busy season orders are sent out the day after they arrive, and the fast mail, express and freight service we have now will get them to you quickly and in good order.

According to Our Tests

**96 per cent**  
of this seed germinates

*A label similar to this is put on every lot of Harris' Seeds that are sold. The figures of course vary.*

## Every Lot of Seed is Tested

Not only tested, but the *results* of the *test* are shown on a label which is attached to every package or lot of seed, including flower seed, sold. This information has been found of great help to those who use Harris' Seeds. By consulting the label you can tell just how thick to sow the seed so as to get an even stand of plants without using an unnecessary quantity of seed which often causes a great deal of time and labor by thinning.

## New York State Law

The new seed law of this State requires that the percent of germination be placed on all packages of **vegetable seeds** as well as farm seed offered for sale in this State.

The fact that the law now makes it compulsory to give this information on all vegetable seeds proves the importance of the service which we have rendered our customers during the past 25 years.

# WHOLESALE PRICE LIST

## Harris' Northern Grown Seeds for Market Gardeners and Florists

The prices quoted in this list apply only to orders from market gardeners, florists and institutions, who use seed in considerable quantities. *All prices here quoted are subject to change without notice and to our stocks being unsold.*

For prices of seed in quantities less than listed here, please refer to our general catalogue.

*We will be pleased to quote special prices to anyone buying large quantities of any one variety. Please write.*

*Spargol (Ger.)*

## ASPARAGUS

*Sparagio (It.)*

### Mary Washington—Large, early and "rust resistant"

This is the best of the "rust resistant" varieties originated by the United States Department of Agriculture at Washington. Our seed is of the true Mary Washington strain and will produce the finest large attractive stalks.

Price: Oz. 15c;  $\frac{1}{4}$  lb. 40c; 1 lb. \$1.25; 10 lbs. \$11.50.

ASPARAGUS ROOTS. See page 37.

*Artichoke (Ger.)*

## ARTICHOKE

*Carciofo (It.)*

The Globe Artichoke produces the flower buds which are used for food the second year after sowing the seed. The plants are not hardy and require protection in winter north of Virginia.

LARGE GREEN GLOBE. The standard variety. Oz. 50c;  $\frac{1}{4}$  lb. \$1.50; 1 lb. \$5.00.

Tendergreen Beans

*Bohnen (Ger.)*

## BEANS

*Fagioli (It.)*

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

Beans in this price list are quoted f. o. b. Coldwater, N. Y. Purchaser pays transportation on beans, except as follows:

If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

*We sell beans by weight only. 15 lbs. equals one peck, 60 lbs. a bushel. 30 lbs. or more of one variety will be supplied at the 100 lb. price.*

## BOUNTIFUL

### The Most Profitable Green Bean to Grow

There is no better stock of Bountiful Beans obtainable than our special Northern Grown seed. Our seed is grown from carefully selected foundation stocks in *disease free fields*. We are sure there is no finer stock grown. The pods are light green, straight and flat.

1 lb. 35c;  $7\frac{1}{2}$  lbs. \$1.60; 15 lbs. \$2.85; 100 lbs. \$16.00. Not prepaid.\*

*"Have used your seeds for a number of years and can highly recommend same. Always get a premium on Chicago Market, especially on Perfection Cucumber and Tendergreen Beans." Fred Haut, Davenport, Iowa. Mar. 16, 1934.*

## Tendergreen Beans

### Handsome, Early and Prolific

We grow as fine a stock of this valuable bean as can be obtained. Our seed crops are grown from the most carefully selected high yielding foundation stocks.

Market gardeners who want a handsome early straight, round podded green bean of high yield and superb quality should grow Harris' Strain of Tendergreen.

1 lb. 35c;  $7\frac{1}{2}$  lbs. \$1.60; 15 lbs. \$2.85; 100 lbs. \$16.00. Not prepaid.\*

\*We prepay freight charges if your order for vegetable seeds including beans amounts to \$20.00 or more.

## Stringless Black Valentine—(Asgrow) Hardy, Early and Large Yielder

This is one of the earliest and most prolific varieties we know. The large yields of attractive pods make this a very profitable kind to grow if your market demands a green podded bean. When young, the pods are nearly round, long, straight, entirely stringless and of excellent quality.

We offer an exceptionally true stock.

1 lb. 30c; 7½ lbs. \$1.50; 15 lbs. \$2.70; 100 lbs. \$15.00. Not prepaid.\*

## Pencil Pod Black Wax

### The Best Round Podded Wax Bean for Market

Our seed is grown from carefully bred stock seed, especially selected for vigor, high yield and true type. We are pleased to offer such a fine true stock of this popular variety.

1 lb. 30c; 7½ lbs. \$1.50; 15 lbs. \$2.70; 100 lbs. \$15.00. Not prepaid.\*

## Sure Crop Wax The Best Flat Wax Bean

If your trade demands a *flat* wax or yellow bean you will do well to grow Harris' Strain of Sure Crop. We are confident that there is no better strain grown than the one we offer.

1 lb. 30c; 7½ lbs. \$1.50; 15 lbs. \$2.70; 100 lbs. \$15.00. Not prepaid.\*

*"Harris' Seeds have been used on this farm by Father and Son for over 50 years and were always found to be as represented." H. H. Sweetster, Cumberland Center, Me. May 18, 1934.*

*"Have used your seeds for 7 years without a crop failure." C. C. Stanton, E. Chatham, N. Y. May 28, 1934.*

\*We prepay freight charges if your order for vegetable seeds including beans amounts to \$20.00 or more.

Ruebe (Ger.)

BEETS

Barbabietole (It.)

1/4 lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre (for rows 18 in. apart.)

Harris' Special Detroit Dark Red Beet

No better stock of this popular beet can be obtained at any price. We have carefully selected and grown our special strain of Detroit Dark Red Beet for over thirty years. It will produce beets that are much more uniform in shape and of better color than the strains usually sold.

Market Gardeners find this an extra fine beet for late summer and fall bunching.

1/4 lb. 40c; 1 lb. \$1.30; 10 lbs. \$12.50; 100 lbs. \$115.00.

"After over 30 years using your seed I must say it was always good and I have great confidence in your word as well as your seed." Andrew McClelland, Chicopee, Mass. Mar. 29, 1934.

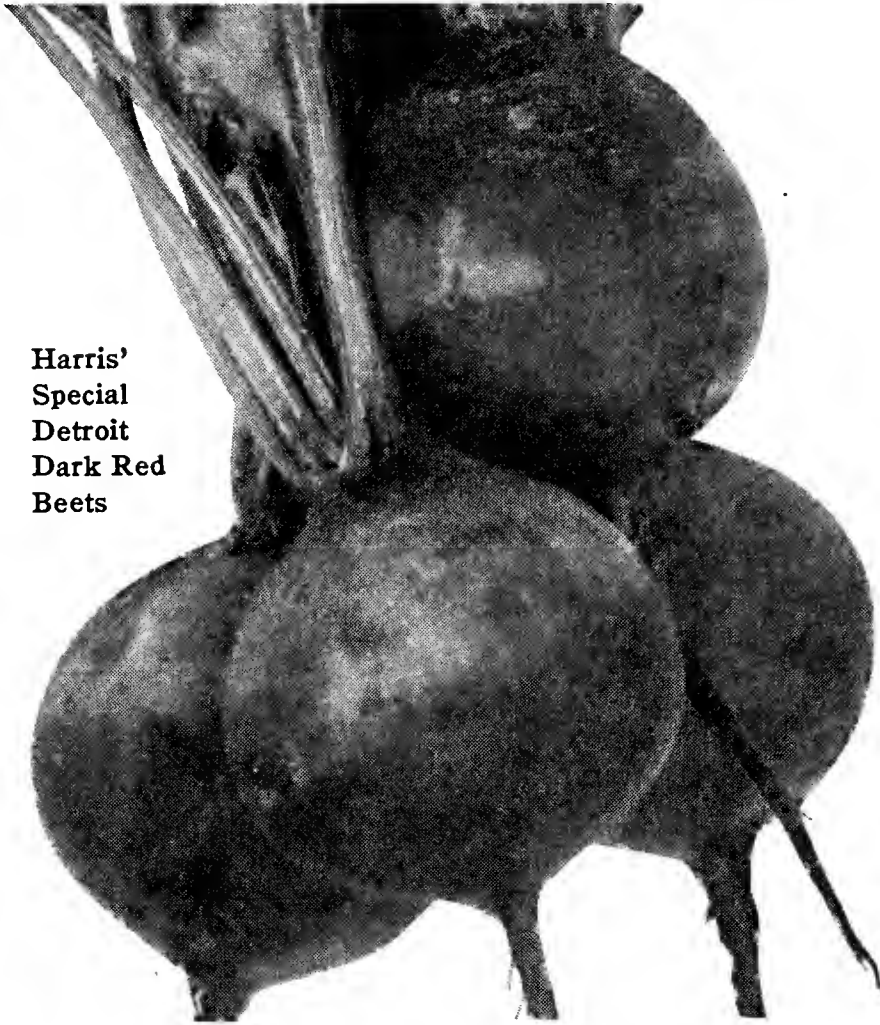

Harris' Special Crosby's Egyptian Beet The Finest Bunching Beet

Every one a model for shape and color. Our special Northern grown strain is the result of over thirty years of intensive selection and will produce beets which grow rapidly and are ready for market as early as any other kind we know. We are confident that our strain of this great beet is the finest of the type grown.

1/4 lb. 40c; 1 lb. \$1.30; 10 lbs. \$12.50; 100 lbs. \$115.00.

"I purchased seeds of you this year as I have for many years past. One item Harris' Crosby's Egyptian beet I found I did not have quite enough seed so purchased some Crosby's Egyptian from one of the largest New England seedsmen. Planted in rows side by side, same day with exactly same conditions.

Harris' smooth, very dark, very fine quality. The others lighter, somewhat stringy, not good shape often dented, etc., instead of smooth and round. HARRIS' would sell for double the price of others. Seed cost same." F. E. Parsons, E. Bridgewater, Mass. Aug. 11, 1934.

Harris' Special Detroit Dark Red Beets

	1/4 lb.	1 lb.	10 lb.	100 lb.
CROSBY'S EGYPTIAN. Harris' Special Strain. See above....	\$ .40	\$1.30	\$12.50	\$115.00
CROSBY'S EGYPTIAN. Bright Red Strain.....	.35	1.10	10.00	90.00
Color lighter red than Harris' Strain. Popular in some markets.				
EARLY WONDER. A Superior Strain.....	.40	1.30	12.50	115.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is very fine.				
Egyptian Blood Turnip.....	.30	.90	8.50	75.00
Flatter than Crosby's and is preferred by some for early bunching.				
DETROIT DARK RED. Harris' Special Strain. See above....	.40	1.30	12.50	115.00
Early Blood Turnip.....	.30	.95	9.00	80.00
A good old variety, large flat beets.				
LONG SMOOTH BLOOD RED.....	.30	.95	9.00	80.00
8 to 10 inches long and very dark red. Grows half out of the ground.				
LONG SEASON. Called "Winter Keeper" and "New Century".....	.60	2.00	19.00	180.00
A very late variety of extra fine quality. Description in Retail Catalogue.				

MANGELS AND SUGAR BEETS—For Stock

Six to eight pounds of seed will sow an acre.

	1/4 lb.	1 lb.	10 lb.
DANISH YELLOW GIANT. The Heaviest Yielder.....	\$ .20	\$ .50	\$ 4.50
Golden Tankard. Deep yellow flesh.....	.20	.50	4.50
NEW "HALF SUGAR" MANGEL. Rich in Sugar.....	.20	.50	4.50
MAMMOTH LONG RED. The Most Popular Variety.....	.20	.50	4.50
Giant Yellow Eckendorf.....	.20	.50	4.50

See our General Catalogue for full description of Mangels.

**BROCCOLI—Italian Green Sprouting (*Calabrese*)**

The seed we offer of this profitable market vegetable is of the true Italian Calabrese type which has proved so satisfactory. It is important to get seed which will produce a large compact central head and tight side shoots after the center head is cut. You can depend on the Harris strain to do this.

Price: Oz. 70c;  $\frac{1}{4}$  lb. \$2.10; 1 lb. \$7.50.

*Rosenkohl* (Ger.)

**BRUSSELS SPROUTS**

*Cavolo di Brussels* (It.)

Cultivation is the same as for cabbage or cauliflower. 1 oz. of seed will produce about 3000 plants.

**Long Island Improved Brussels Sprouts—Special Strain**

We are pleased to be able to offer this very fine strain of Long Island Improved Brussels Sprouts. The plants are not tall but the stems are completely covered with large and very firm sprouts. The high percentage of large sprouts and the high yield make this a most profitable strain to use. Oz. 60c;  $\frac{1}{4}$  lb. \$1.90; 1 lb. \$6.50.

*Blumenkohl* (Ger.)

**CAULIFLOWER**

*Cavolflore* (It.)

One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.

Wm. Scorse & Son, Rochester, N. Y.—grow Harris' Super Snowball Cauliflower. Photo taken Aug. 6th.

### Super Snowball Cauliflower True Originator's Strain—Early

This variety is also sold as "The Forbes" and "Burpeeana." The popularity of this wonderful early cauliflower has brought many strains with various names in the market. We have found in our extensive trials that there is no strain superior to the *true originator's stock* which we have sold since the introduction of this variety in 1929.

We strongly advise our customers not to take chances with their early cauliflower but to use this proven original strain which has been so very satisfactory since its introduction.

Price:  $\frac{1}{4}$  oz. 85c; oz. \$2.65;  $\frac{1}{4}$  lb. \$9.00; 1 lb. \$32.00.

"We shipped 6700 crates of cauliflower from 9 acres last year. Most of it Harris' Super Snowball. Wonderful flower, nearly 90% fancy." Frank J. Todd, Stamford, N. Y. Feb. 10, 1934.

"I had some of your Super Snowball this year and they are wonderful—the best I had." Arthur Coss, Andes, N. Y.

**Snowball Cauliflower—Perfected Strain**

This is the best main crop Snowball which we know, and we can confidently state that the seed we offer is the finest strain obtainable. There is no use paying more than we charge as no better can be bought at any price. A trial will convince you.

Price:  $\frac{1}{4}$  oz. 55c; oz. \$1.85;  $\frac{1}{4}$  lb. \$6.25; 1 lb. \$22.00.

	$\frac{1}{4}$ oz.	Oz.	$\frac{1}{4}$ lb.	1 lb.
<b>SUPER SNOWBALL.</b> See above.....	\$.85	\$2.65	\$9.00	\$32.00
<b>SNOWBALL.</b> Perfected Strain. See above.....	.55	1.85	6.25	22.00
<b>DANISH PERFECTION.</b> For late market.....	.55	1.85	6.25	22.00
A strain of Snowball Cauliflower with more leaves to cover the head. Heads very solid and without protruding leaves. A week later than Snowball.				
<b>Danish Giant Snowball or "Dry Weather"</b> .....	.55	1.85	6.25	22.00
Ten days or two weeks later than Snowball and more vigorous. Stands drought.				
<b>ERFURT EARLY DWARF.</b> (Catskill) Madsen's Stock No. 3....	.55	1.85	6.25	22.00
Much like Snowball, but has somewhat shorter stems and matures a little earlier. Has proven the best in several trials made here in New York State.				
<b>ITALIAN PURPLE.</b> Large purple heads (Late).....	.40	1.25	4.25	15.00
This is a true cauliflower, but the heads have a purple tinge and do not require tying. The demand for these cauliflower far exceeds the supply.				

**Kraut (Ger.)**

# CABBAGE

**Cavolo capucci (It.)**

One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames. It requires 4 to 6 oz. of seed to produce plants for an acre of ground.

## Golden Acre The Earliest Cabbage

Golden Acre matures a week earlier than Jersey Wakefield. The heads are very solid, an attractive bright green color and all mature within a short period of time. They resemble a fine type of Copenhagen Market but are smaller and earlier. Every plant makes a good head. The plant has but few outside leaves, so that they can be set very close and a large crop of early heads harvested per acre.

This strain which we offer is the true originator's stock, and is superior to most stocks sold even at a much higher price.

Oz. 40c; ¼ lb. \$1.15; lb. \$3.75.

Golden Acre

## Golden Acre Special The Best Strain of Golden Acre Obtainable

This finely bred strain of Golden Acre is we believe the most perfect strain of early cabbage in existence. This is the stock for the grower who wants absolutely the best there is and is willing to pay the little extra cost which actually amounts to only about 85c per acre.

Oz. 65c; ¼ lb. \$2.00; lb. \$7.00.

"We got 10,000 plants from 2 oz. of Golden Acre cabbage seed and nearly every plant made a head. We had the finest cabbage in our market." P. D. Kenner, Lancaster, Pa. Dec. 26, 1933.

### Early Varieties

	Oz.	¼ lb.	lb.
<b>GOLDEN ACRE. The Earliest Cabbage.</b> See above.....	\$ .40	\$1.15	\$3.75
<b>Golden Acre. Special Strain.</b> See above.....	.65	2.00	7.00
<b>EARLY JERSEY WAKEFIELD. Early Pointed Heads.</b> .....	.25	.75	2.50
Our strain is particularly fine, the heads being very uniform and early.			
<b>COPENHAGEN MARKET. Large Headed.</b> .....	.30	.90	3.00
Our strain is larger and more uniform than usual strains of this variety. Heads round, hard and have few outside leaves. Larger but about 10 days later than Golden Acre.			
<b>MARION MARKET. "Yellows" Resistant. Copenhagen Type.</b> .....	.50	1.35	4.50
<b>LARGE LATE COPENHAGEN. Best for Kraut.</b> See below.....	.35	1.10	3.50
<b>ENKHUIZEN GLORY. True Originator's Strain.</b> .....	.25	.70	2.25
A very large, medium early cabbage. Heads as large as the late kinds and mature much earlier. Has proved to be a most profitable variety for market and kraut.			
<b>Burpee's All Head Early</b> .....	.25	.75	2.50
Heads flat and of good size. Medium early. For main crop, fall market and shipping.			

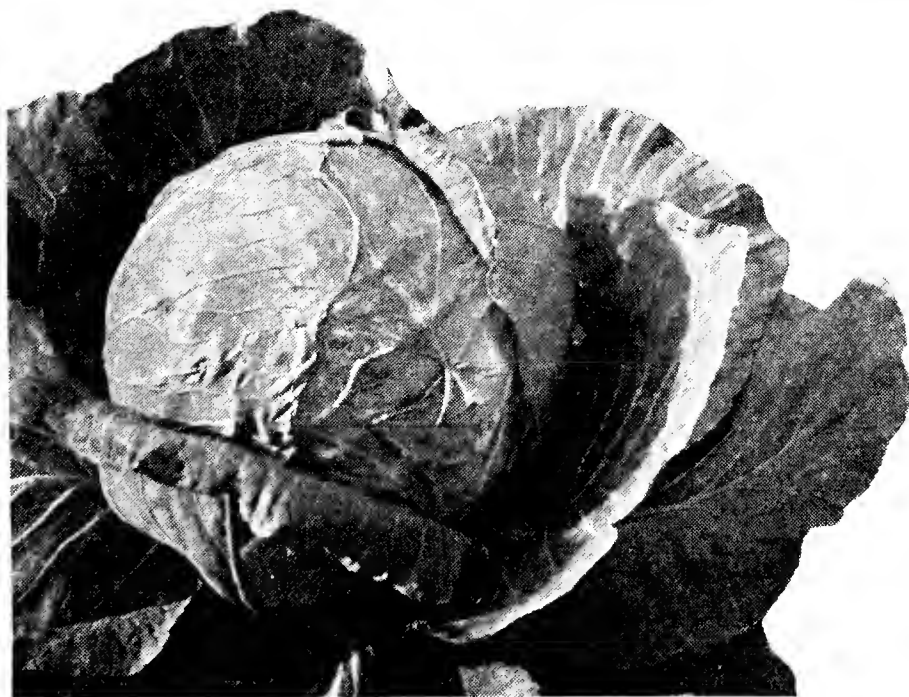

## Large Late Copenhagen

### Best for Late Market and Kraut

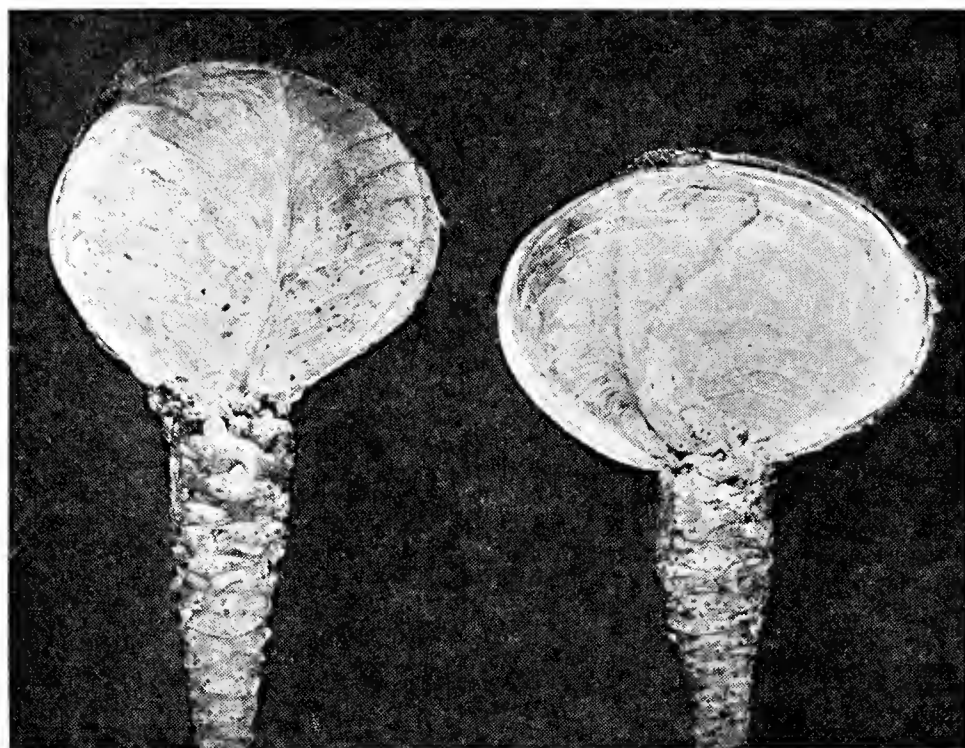

This new variety which we introduced in 1933 has met with much favor among gardeners and farmers, for market and kraut and has become a very popular kind to grow.

This cabbage is the true Copenhagen type and can be cut for main crop market or if desired they can be left in the field for kraut. The heads will actually increase in size to 10 to 12 in. in diameter without splitting or getting soft. This strain is very uniform in type and will produce enormous yields of the finest kraut cabbage. Be sure to get the true original strain of this variety.

Oz. 35c; ¼ lb. \$1.10; lb. \$3.50.

Large Late Copenhagen

Danish Intermediate

Danish Short Stemmed

## Danish Ballhead Short Stem

### Pure Bred Heavy Yielding Strain

We are pleased to offer our customers this fine strain of Danish Ballhead Short Stem. The heads are uniform in shape, large, solid and of a good deep green color. This cabbage will produce large yields per acre and keep well in storage.

Oz. 30c;  $\frac{1}{4}$  lb. 85c; lb. \$2.75.

### Hot Water Treated Seed

We can supply *hot water treated seed* of the varieties of cabbage we list in this catalogue at no advance in cost. Hot water treated seed is usually a little lower in germination. *We will supply untreated seed on all orders unless treated seed is specifically requested.*

## Late or Main Crop Varieties

	Oz.	$\frac{1}{4}$ lb.	lb.
<b>MIDSEASON MARKET. Heavy Yelder</b> .....	\$ .30	\$ .85	\$2.75
This cabbage has proved one of the most uniform and heaviest yielding medium early varieties grown. The heads are almost perfectly round, large and solid. We highly recommend this variety for market, shipping and kraut.			
<b>DANISH BALLHEAD. Short Stem, Heavy Yielding. See above</b> .....	.30	.85	2.75
<b>HARRIS' BALLHEAD. Crop short</b> .....	.65	2.00	...
This is a very true strain of Danish cabbage of our own selection.			
<b>PENN STATE Ballhead. True Stock</b> .....	.30	.90	3.00
Short stemmed with very solid heads, which are somewhat flatter than most Danish types. This cabbage is noted for the large yield of fine heads. Our stock is very true.			
<b>WISCONSIN HOLLANDER. Heavy Yelder. "Yellows" Resistant</b> .....	.45	1.20	4.00
This cabbage will produce crops in ground so diseased with "yellows" that ordinary cabbage will not grow.			
<b>DANISH BALLHEAD. Intermediate. "Fine Keeper"</b> .....	.30	.85	2.75
Heads are deeper and not as flattened as the short stemmed. The color is deeper green and they keep very well in storage. A profitable type to raise.			
<b>SUCCESSION</b> .....	.25	.70	2.25
<b>All Seasons</b> .....	.25	.70	2.25
<b>Volga. Hard Round Heads</b> .....	.25	.70	2.25
<b>Premium Flat Dutch</b> .....	.25	.70	2.25
<b>Winningstadt. Pointed heads</b> .....	.25	.70	2.25
<b>MAMMOTH ROCK RED. Surest Heading Red</b> .....	.30	.90	3.00
The largest red cabbage. The heads are hard, round and deep red. This is the best red kind for market or shipping, and our strain is especially fine.			
<b>SAVOY. Perfection Drumhead. Market Gardener's Strain</b> .....	.30	.90	3.00
Heads are large of fine quality and quite firm. The color is a deep green, and the leaves are very much curled. Matures late and keeps all winter. This is an extra fine strain for market and roadside stand.			

## CHINESE CABBAGE

Chinese cabbage has proved to be a very profitable crop for muck as well as up-land. The seed is sown in July or August and the crop matures in eight to ten weeks.

	Oz.	$\frac{1}{4}$ lb.	lb.
<b>CHIHILI. Much the Best Variety</b> .....	\$ .30	\$ .90	\$3.00
This new variety has proved to be much the best for market and roadside stands. The heads are often 18 in. long. Our stock will produce uniform solid and attractive heads. This strain has proved a very successful crop when grown on muck land.			
<b>Pe-Tsai</b> .....	.25	.75	2.50
Large heads. 18 to 20 in. high.			
<b>Wong Bok</b> .....	.25	.75	2.50
Short compact heads of fine quality.			

## COLLARDS

**GEORGIA.** Has large cabbage-like leaves, which grow loosely on stems  $2\frac{1}{2}$ -3 ft. tall. Does not form heads. May be sown in spring like cabbage or in June or July. Popular in the South for table use and stock feeding.

Oz. 10c;  $\frac{1}{4}$  lb. 25; lb. 75c.

Chihli

**Carroten (Ger.)**

# CARROTS

**Carota (It.)**

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

Carrots often prove very profitable. They do best on muck or soil of that nature, although very good crops are raised on sandy loam. For late fall market the seed is usually sown in June or first of July. If small carrots for bunching are wanted the seed may be sown as late as August 1st in the North and later further South.

## Red Cored Chantenay A Superior Market Variety

The fine quality of this carrot has made it rapidly replace the old style Chantenay as a market carrot. Our strain of Red Cored Chantenay has been constantly improved and will be found to be exceptionally fine. It is well over 95% coreless, smoother and more uniform than many other strains which we have seen.

Oz. 15c; ¼ lb. 40c; lb. \$1.25; 10 lbs. \$11.00.

## Chantenay Carrot—Special Strain

Grows about an inch longer than Red Cored. Most strains of Chantenay usually sold, and is superior in shape and smoothness. This carrot has proved a popular bunching variety on many markets.

Oz. 12c; ¼ lb. 35c; lb. \$1.10; 10 lbs. \$10.00.

## Imperator

### An Outstanding Carrot for Bunching

This is the fine bunch carrot which is shipped to Eastern markets from California. This carrot does just as well here and should be grown more for the high class bunch trade. The carrots are long (8 in.) smooth, somewhat tapering, stump rooted and deep orange color. The tops are just right for bunching and the appearance very attractive.

Oz. 15c; ¼ lb. 45c; lb. \$1.50; 10 lbs. \$14.00.

Red Cored  
Chantenay  
Carrots

"Your seeds are always fine and produce what they claim they do. My motto is 'Harris' Seeds for all my needs'."

Lewis H. Hafner, Meriden, Conn.  
Mar. 12, 1934.

"I have been planting your seeds for many years and always find them just as represented in your catalogue. I do not believe better seeds can be purchased anywhere." H. C. Baxter, Carmel, N. Y. May 7, 1934.

	Oz.	¼ lb.	Lb.	10 lb.
CHANTENAY. "A Superior Strain." See above.....	\$ .12	\$ .35	\$1.10	\$10.00
CHANTENAY, Red Cored. See above.....	.15	.40	1.25	11.00
TENDERSWEET. The Sweetest Carrot.....	.25	.70	2.25	20.00
This carrot is being grown more and more for market. The striking deep reddish orange color, good bunching character and superb quality have made it popular on many markets.				
DANVERS HALF LONG. A Heavy Cropper.....	.12	.35	1.10	10.00
NANTES. Coreless.....	.20	.55	1.70	16.00
This is the <i>coreless</i> variety that is used most extensively for a fine bunching carrot in many markets. The carrots are smooth, coreless, 6 to 7 in. long, cylindrical and stump rooted.				
IMPERATOR. Fine for Bunching. See above.....	.15	.45	1.50	14.00
Amsterdam Forcing.....	.20	.60	2.00	19.00
The carrots grow about 5 to 6 in. long and 1 to 1½ in. through and the same size the whole length. The end is blunt and with very fine rat-tail root. The color is deep orange red all through the root including the core.				
PERFECTION. A Larger "Coreless".....	.20	.55	1.75	16.50
This new carrot is similar to Amsterdam Forcing, but is larger being 6 to 8 in. long. They are practically the same size the whole length, <i>coreless</i> and very smooth. A fine carrot for fall market.				
HUTCHINSON. Finest Market Garden Strain.....	.25	.70	2.45	22.00
The roots are 8 to 9 in. long, nearly the same size the whole length and stump-rooted. Color light orange. This carrot yields large crops and is used extensively for busheling.				
OXHEART or Guerande.....	.12	.30	1.00	9.00
Short, thick carrots, used for bunching and table use. Very early pulled.				
Long Orange.....	.12	.30	.90	8.00
Roots a foot long, yields large crops.				
MASTODON or WHITE VOSGES.....	.10	.25	.75	6.50
Large, white carrot for stock feeding. Immense yielder. 8 to 10 inches long.				

*Sellerie (Ger.)***CELERY***Sedano (It.)**An ounce of seed will produce about 8000 plants. It requires 20,000 plants to the acre.*

C. F. Duerr, Irondequoit, N. Y. — in his field of Harris' Golden Plume Celery

For very early planting the seed should be sown in February or first of March. For late crop the seed is sown in the open ground as early as possible. Great care must be taken not to cover the seed too deep. More failures to get the seed to germinate are due to this cause than any other.

### Golden Plume or Wonderful The Best Yellow Celery

We consider this the finest all around celery of the "blanching" type in existence.

The stalks of our special stock are *very large* with remarkably *heavy hearts* and with *thick solid stems*, *unusually long* between the root and first joint. There is not one green stalk in a thousand and no soft ones.

This strain is quite *blight-resistant*. Often where other kinds are badly affected with blight or rust our stock of Golden Plume will be found in the same field perfectly healthy and entirely free from blight.

The seed is of strong germination and we can confidently recommend it. There is no finer strain obtainable *at any price*.

Oz. 85c;  $\frac{1}{4}$  lb. \$2.85; lb. \$10.00.

"We had excellent results from your Golden Plume Celery seed last year." McHugh Bros., Concord, Mass. Feb. 23, 1934.

### Golden Self Blanching Old Strain Dwarf—Full Hearted—True Stock

We have a very fine stock of this popular variety. The stalks are large, just high enough to nicely fill a standard celery crate without trimming, and have large heavy hearts. Good celery men find this is a very profitable strain to grow.

Oz. 75c;  $\frac{1}{4}$  lb. \$2.35; lb. \$8.00.

### Yellow or "Self-Blanching" Varieties

	Oz.	$\frac{1}{4}$ lb.	lb.
GOLDEN PLUME or WONDERFUL. See above.....	\$ .85	\$2.85	\$10.00
GOLDEN SELF-BLANCHING. "Old" Strain. See above.....	.75	2.35	8.00
The same as has been raised for many years.			
GOLDEN SELF-BLANCHING. "New" Strain. Tall.....	.75	2.35	8.00
Grows very rapidly and is strong and healthy, resisting blight well. Some growers think it is too tall for late crop and storage, but prefer it for the early crop.			
GOLDEN PHENOMENAL.....	.85	2.85	10.00
This is the largest strain of Golden Self Blanching. It resembles Golden Plume but is a little longer from the first to second joints. Very large fine celery can be grown from this variety.			

### Green Varieties

SALT LAKE or UTAH. The Best Green Celery. See next page.....	\$ .75	\$2.35	\$ 8.00
EASY BLANCHING or Sanford Superb.....	.60	1.75	6.00
A very good variety to follow Golden Self-Blanching. It is the same dwarf, compact habit of growth, blanches easily and quickly, and is of fine quality. The leaves are green and the stalks pure white when blanched. The strain we offer is very carefully grown and is far superior to the seed usually sold.			
GIANT PASCAL. Special Strain.....	.50	1.50	5.00
This strain of Giant Pascal is largely used in New England and is considered one of the very best for late winter market. The stalks are large, very solid and blanch pure white. This strain is far superior to the ordinary Giant Pascal.			

"Have used your seeds for the past four or five years and like them very much, in fact better than any I purchased previously. During this time I have recommended your seeds to a good many in this locality, who in turn after trying them I think feel the same as I do," Milton Davis, North Woodstock, N. H. Feb. 28, 1934.

"We have used Harris' Seeds for several years and find them extra good." G. M. Rynders, Cohocton, N. Y. Mar. 20, 1934.

"I have found your seeds and service most satisfactory in every way since I began using your seeds." Andrew Green, Lisbon Falls, Me. Feb. 21, 1934.

Salt Lake (or Utah)  
The Best Green Celery

This new green celery is just what we have long been looking for—an almost perfect green celery for winter storage. Growers who have had it the last five years have been very enthusiastic about it as it supplies a long felt need for a superior green celery.

The plant grows to a good height, not too tall, and makes a well developed and heavy heart. The individual stalks are *very thick*, crisp and of high quality. They blanch more quickly than other green varieties.

The Harris' Strain produces uniformly large compact heads. In one field we examined several thousand heads as they were being dug *but could not find a single soft one.*

Oz. 75c; ¼ lb. \$2.35; 1b. \$8.00.

*"Your Salt Lake Celery is a real knockout. It was the finest celery we ever had, absolutely stringless crisp and fine."*  
Spencer B. Hunt, Hunt, N. Y.

*"I am sending you these few lines to say I am very well pleased with your seed. 'Salt Lake' is everything you claim it to be."* Joan De Young, St. Catherines, Ont., Canada.

Salt Lake Celery

Harris' Celery Plants

Sturdy, well grown and true to name.  
Varieties—Golden Self Blanching (Old Strain) Golden Plume, Easy Blanching and Salt Lake.

CELERIAC—Turnip-Rooted or "Knob" Celery

	Oz.	¼ lb.	lb.
LARGE SMOOTH PRAGUE. Best for Market. . . . .	\$ .25	\$ .75	\$2.50
This is the standard market garden variety.			
DELICACY. Finest Quality. . . . .	.30	.90	3.00
A new variety which produces medium size bulbs of fine quality.			

Garten-Kresse (Ger.)

CRESS

Agretto (It.)

	Oz.	¼ lb.	lb.
Extra Fine Curled—also called Pepper Grass. . . . .	\$ .10	\$ .25	\$ .75
WATER CRESS. Improved Broad-leaved. . . . .	.45	1.25	4.00
This is a much better strain than the common Water Cress. Excellent for growing in greenhouses and frames.			

CHICORY

WITLOOF or FRENCH ENDIVE. We have a very fine strain of this popular salad plant. For description and price of seed see under Endive on page 17.

Feld salat (Ger.)

CORN SALAD or Fetticus

Valeriannt (It.)

	Oz.	¼ lb.	lb.
LARGE ROUND-LEAVED. Market Gardener's Dark Green Strain. . . . .	\$ .15	\$ .40	\$1.25
Leaves are uniformly large, and dark green. Yields large crops.			

Be sure your Name and Address is on the Order Sheet.

Gurken (Ger.)

# CUCUMBERS

Cetriolo (It.)

¼ lb. of seed will plant about 300 hills or sow 200 ft. of row. It requires about 2 lbs. of seed per acre.

## Cucumber Seed for 1935

The seed crop of cucumbers is very short and the demand will exceed the supply of good seed in 1935. There will undoubtedly be a lot of inferior stocks offered for sale. You can depend on getting the same high grade stocks of cucumber seed which we have supplied our customers in the past.

Harris' Perfection Cucumbers—grown by Jos. Schickler, Coldwater, N. Y.

## Harris' Perfection Cucumber The Finest Long Green Variety

This is undoubtedly the best long green cucumber for market and shipping. We have been breeding this cucumber for a good many years and have now so perfected it that the fruit is more uniform in shape, size and color than any other kind we know. Because of its evenness in size and handsome deep green color Harris' Perfection commands a *premium* over other varieties in market.

The fruit is long, straight, smooth and handsome. The color is deep green with small white rays on the blossom end. The cucumbers retain this deep green color for a long time after picking. It is a white spined variety. The fruit will average over a foot long when matured and some reach 15 inches in length.

This variety is well adapted for dill pickles as well as for general market.

Oz. 30c; ¼ lb. 85c; 1b. \$2.75; 10 lbs. \$25.00.

"Last year I raised some of the nicest Harris' Perfection cucumbers from your seed that I have ever seen. They were long, straight and very dark green." Fred G. Steele, Hudson, N. H. Mar. 21, 1934.

## IRONDEQUOIT HOTHOUSE CUCUMBER Greenhouse Bred Strain

Seed saved entirely from perfect fruit grown under glass and will produce remarkably fine uniform cucumbers. This is the famous variety which has been developed by the greenhouse growers around Rochester. The fruit is long, slender, deep green and nearly perfectly solid with very few seeds and in some fruit practically none. The vines are wonderfully vigorous and very prolific.

100 seeds \$1.00; 500 seeds \$4.00.

### White Spine Varieties

	Oz.	¼ lb.	1b.	10 lb.
LONGFELLOW. See page 13.....	\$ .30	\$ .85	\$2.75	\$25.00

DAVIS' PERFECT.....	.20	.55	1.75	16.50
Long straight fruit, tapering at both ends, very dark green, holds its color well.				
EARLY FORTUNE. Selected Stock.....	.20	.55	1.75	16.50
A very fine strain of White Spine. It is medium early and productive, excellent for market and pickles. The fruit is 7 to 9 inches long, slightly tapering and of deep green color. It holds its color well when shipped.				
CHINA. Finest Quality.....	.45	1.20	4.00	....
Grows 15 to 20 in. long and very slender. For full description see our retail catalogue.				
IRONDEQUOIT HOTHOUSE. For Forcing. See above.....	....	....	....	....
WOODRUFF'S HYBRID. First Class Stock.....	.20	.60	1.85	17.50
Grows 8 to 10 in. long and stays green a long time. We have a very fine strain of this cucumber.				
EARLY WHITE SPINE. For Pickles.....	.15	.45	1.50	14.00
Early and very productive. Excellent for pickles as well as for slicing.				
KLONDIKE.....	.15	.45	1.50	14.00
A popular variety for pickles. Dark green, straight and very prolific.				
White Wonder.....	.25	.70	2.25	....

CUCUMBERS continued on next page

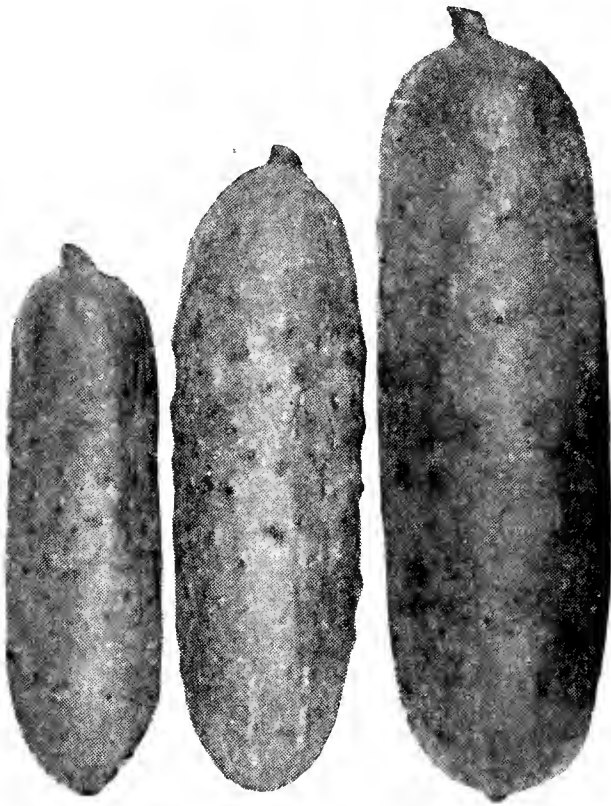

Harris' Double Yield Pickle  
The Most Prolific Variety

This variety yields more pickles per plant than any other variety we have ever grown. In a carefully conducted trial the Double Yield produced *three times* as many small pickles as the next most prolific variety.

When the small cucumbers are kept picked off as fast as they get to the right size for pickles, the vines produce an astonishing number. The young cucumbers are often produced in clusters of three or four like the fingers of your hand.

The cucumbers are very straight with blunt ends, medium deep green in color and of the very best shape for small pickles. See photo opposite.

Harris' Double Yield is not only much more prolific than other kinds but is also *earlier*. These cucumbers mature two weeks before other kinds are ready. On this account many gardeners find it profitable to grow as a market variety for slicing. The fruit is 5 to 6 inches long when ready for slicing.

Harris' Double Yield Pickles  
Note the uniformity of shape

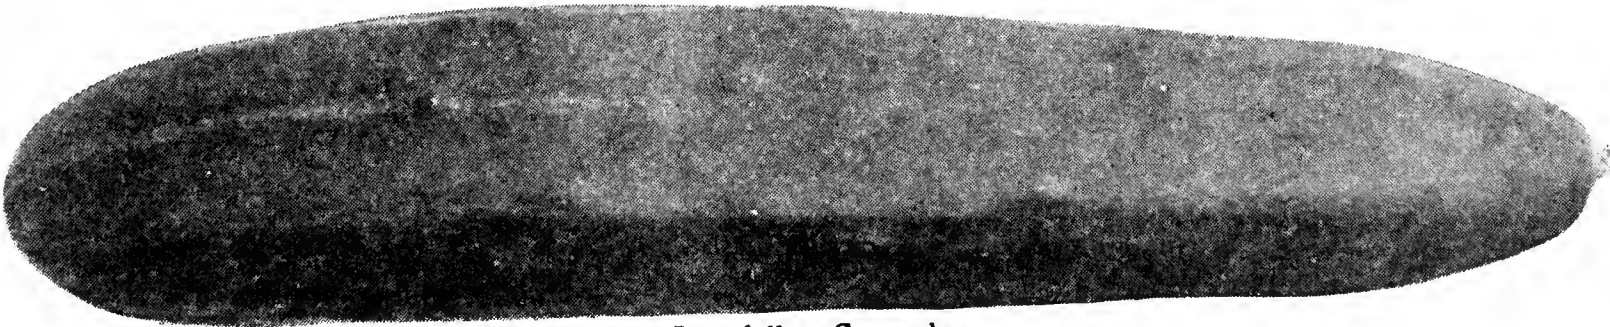

Oz. 30c; ¼ lb. 85c; 1 lb. \$2.75; 10 lbs. \$25.00.

"I grew your Harris' Double Yield pickles last season. I think they are the finest specimens and best yielders I ever grew or handled." Patrick H. Purcell, Aurora, N. Y. 1933.

Black Spined Varieties

	Oz.	¼ lb.	Lb.	10 lb.
HARRIS' DOUBLE YIELD PICKLE. Best for Pickles. See below	\$ .30	\$ .85	\$2.75	\$25.00
IMPROVED LONG GREEN.....	.30	.85	2.75	25.00
Very popular for both table use and for pickles. A Black Spine variety and turns deep yellow when ripe.				
CHICAGO PICKLING.....	.20	.55	1.70	16.00
Very prolific and profitable for pickles. The young fruit is straight, square ended and of medium deep green color.				
Green Prolific or Boston Pickling.....	.20	.55	1.70	16.00
Very prolific; short, bright green fruit. A profitable variety for pickles.				
Perfected Jersey Pickle.....	.25	.70	2.20	20.00
Longer and more slender than Chicago and Boston Pickling. An excellent variety.				
Early Green Cluster.....	.20	.55	1.70	16.00
Short fruit produced early and in great abundance. Of rather light green color.				
Everbearing.....	.20	.55	1.70	16.00
Starts bearing early and continues a long time. Short with blunt ends.				
Japanese Climbing.....	.25	.70	2.20	20.00
A vigorous grower; long, smooth fruit of excellent quality.				
West India Gherkin.....	.25	.70	2.20	20.00
Lemon Cucumber.....	.20	.60	1.85	17.50
A real cucumber about the size and shape of a lemon. For table and pickling.				

"Have had seeds of you for about 20 years and have always found them satisfactory." E. C. Gregory, Ferndale, N. Y. Mar. 17, 1934.

Longfellow Cucumber

Longfellow  
Long Slender and Dark Green

We are pleased to continue to offer this *true* strain of Longfellow. The fruit is long, smooth and dark green, closely resembling hothouse cucumbers and always commands high prices.

Price: Oz. 30c; ¼ lb. 85c; 1 lb. \$2.75; 10 lbs. \$25.00.

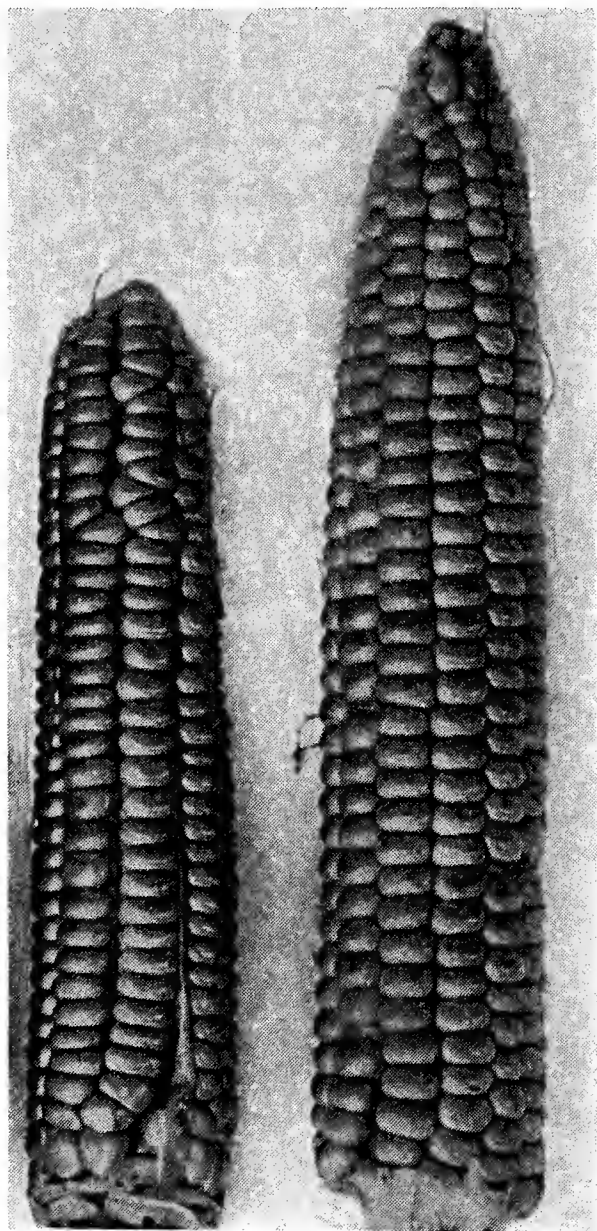

*Welschkorn (Ger.)***SWEET CORN***Mais (It.)*

*One pound of seed will plant 350 to 400 hills; 12 to 14 lbs. will plant an acre.*

*Note—25 lbs. of one variety will be supplied at the 100 lb. rate. A bushel weighs 40 to 50 lbs. depending on the variety.*

\*At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the freight charges.

Note how much larger Canada Gold (right) is than Extra Early Bantam.

**Harris' Northern Grown Sweet Corn**

Harris' Northern grown sweet corn is earlier, hardier and more vigorous than seed of the same varieties grown farther south and in the West. For many years we have made a specialty of growing sweet corn seed and have spent much time and effort in careful scientific selection and breeding to improve the earliness, yield and quality of our varieties. Growers who know find it pays to use Harris' Northern Grown Sweet Corn.

Good sweet corn is very short this year but you can depend on getting the same high grade stocks that we have sold in the past.

*Write for special prices on large lots.*

**Canada Gold (NEW)****Large, Handsome Ears, Heavy Yield and EARLY**

This new variety is something that corn growers have been trying to get for years; a corn that will mature for the first early markets and at the same time *produce large handsome ears*. It will be sure to command a premium in any market.

The ears are large *eight to ten inches long*, with 8 to 12 rows of deep butter yellow kernels of excellent quality. The plant is strong, tall and sturdy, often producing two good ears on a stalk, and in spite of the large size this corn matures ready for market practically as early as Extra Early Bantam and the other first early kinds. This is a real achievement in sweet corn breeding.

Of necessity our crop this year was limited, so in order to give as many as possible a chance to try this corn we are obliged to limit our sales six pounds to a customer.

1/2 lb. 30c; 1 lb. 50c; 6 lbs. \$2.20. Not prepaid.\* See above.

**Whipple's Yellow Sweet Corn  
Harris' Original Northern Grown Stock**

*You cannot afford to grow an ordinary strain of this fine corn.*

We introduced this variety in 1920, and have carefully grown and selected it for earliness, uniformity and large size since that time.

The great popularity of this fine variety has brought many inferior strains on the market.

*Every pound of this variety which we sell is grown here in the North on and in the vicinity of our own farm, from our own carefully bred stock seed.* The only safe way to do is to buy your seed direct from headquarters and you will be sure that you are getting the true original Whipple's Yellow. *We do not sell to dealers.*

*Note—When ordering please write "Whipple's Yellow" not just "Whipple's" as that will confuse it with Whipple's Early which is a white corn.*

1 lb. 40c; 6 lbs. \$1.50; 12 lbs. \$2.75; 100 lbs. \$20.00. Not prepaid.\* See above.

**Golden Early Market (Gill's)**

*Same as Golden Hummer, Extra Early Golden, Extra Early Yellow, Etc.*

This corn has proved to be a very popular kind with market growers and at roadside stands, but be sure to get the true strain of this variety as there are many different strains of this corn sold under a great variety of names. We obtained our stock seed from the originator and have carefully grown our seed crop here in the North for the last two years. The ears resemble closely Gill's Early Market (White) being 7 to 8 in. long and containing 10 to 12 rows of broad yellow kernels.

1 lb. 45c; 6 lbs. \$1.60; 12 lbs. \$3.00; 100 lbs. \$22.00. Not prepaid.\* See above.

## Harris' Extra Early Bantam Sweet Corn

### The Best Extra Early Yellow Kind

*Northern Grown Seed—grown under our careful supervision on nearby farms from our own carefully selected stock seed.*

We consider this one of the best all around Extra Early Yellow varieties. It has proved to be a real money maker for gardeners.

The ears of Harris' Extra Early Bantam are usually 7 to 8 inches long and have 8 to 10 rows of yellow kernels. They are just like Golden Bantam in appearance and quality but they mature 10 days earlier.

*The yield is heavy.* We know of no early corn which will produce such a large number of fine ears as Extra Early Bantam. Think of the difference in profits from using this early strain. The whole crop can be picked and sold before the market becomes flooded with the later yellow kinds.

1 lb. 40c; 6 lbs. \$1.50; 12 lbs. \$2.75; 100 lbs. \$20.00. Not prepaid.\*

*"I have had very good results from all the seeds and plants you furnished me this year. Had Extra Early Bantam for July 4th, 62 days after planting to the dismay of my neighbors who are all better gardeners than I but depend on local or poor seed." W. B. Dexter, Fostoria, Ohio, July 10, 1934.*

## Golden Cross Bantam

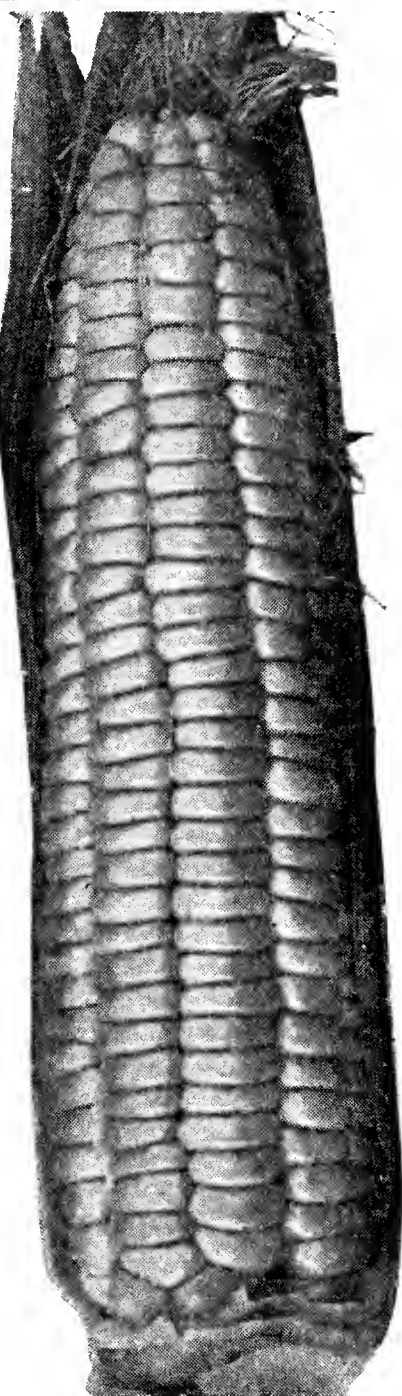

**Wilt Resistant—High Yielding—Uniformly Large Ears**

We recommend this hybrid sweet corn for places where Stewart's Disease (wilt) make it impossible to grow ordinary varieties of sweet corn. This corn is resistant to bacterial wilt (Stewart's Disease) and produces *large crops* of beautiful ears. The ears have 10 to 14 rows of light golden yellow kernels, are remarkably uniform in length (about 8 in.) and are of excellent quality. They mature about a week later than Golden Bantam, the whole crop ripening at about the same time.

This crossed seed was produced by controlled cross pollination of two inbred parents (Purdue Bantam and Purdue No. 51) in 1934 and will produce the true Golden Cross Bantam described above in 1935. However, seed from the 1935 crop cannot be saved for 1936 as it will break down. The cross has to be made each year.

This corn will mature in all but the most northern parts of the United States.

1 lb. 65c; 6 lbs. \$3.30; 12 lbs. \$6.35; 100 lbs. \$50.00. Not prepaid.\*

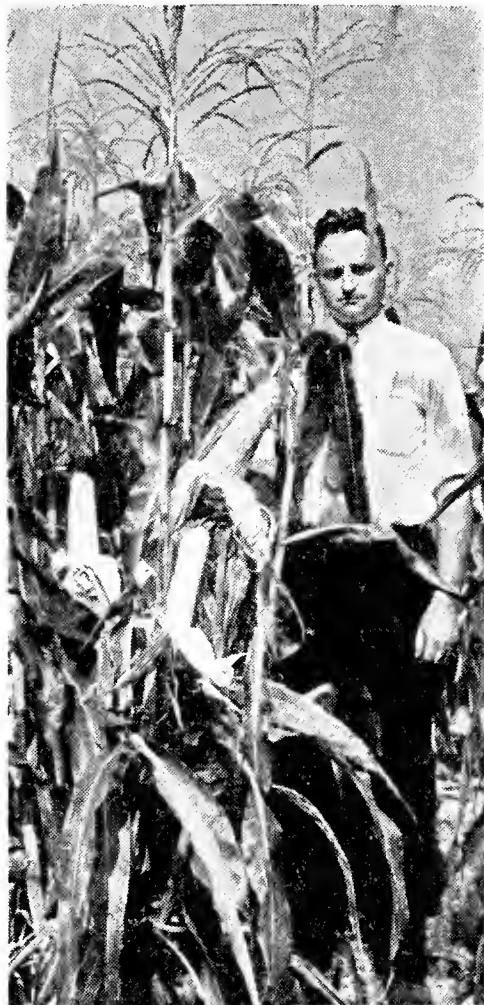

Harris' Extra Early Bantam Sweet Corn

A new extra early yellow corn. Matures a week earlier than Golden Bantam. Ears 6 to 7 in. long, 12 rowed and deep yellow. Quality very good.				
BANTAM EVERGREEN.....	.40	1.50	2.75	20.00
This is the best late yellow corn. Ears large straight rowed and fine quality. Our Northern grown seed is very superior.				
GOLDEN GEM. The Earliest Variety.....	.40	1.50	2.75	20.00
This new corn is the earliest we have yet found. Does not grow tall.				
GOLDEN EARLY MARKET (Gill's) same as Golden Hummer and Extra Early Yellow. See opposite page.....	.45	1.60	3.00	22.00
BUTTERCUP.....	.40	1.50	2.75	20.00
A larger, improved Golden Bantam. The long slender ears always command a premium on markets.				
Golden Giant.....	.40	1.50	2.75	20.00
A good yellow corn to follow Bantam as it matures a week later and has larger ears, 12 rowed, and the corn is of high quality.				
GOLDEN Country Gentleman.....	.50	2.20	4.20	32.00
The large attractive ears and superb quality make this a fine corn for late market and roadside sales. The kernels are irregular like the old white variety but deep golden in color. One of the sweetest varieties grown.				

\*We prepay freight on sweet corn if your order for vegetable seeds including sweet corn amounts to \$20.00 or more.

Long Island Beauty Sweet Corn

## Long Island Beauty

### Special Strain—Large Eared—True stock

In order to get the best stock obtainable we have grown a crop of this fine corn on our own farm from a very highly selected stock seed. You can be confident that this strain will produce an abundance of mammoth ears of the true Long Island Beauty. The ears are often over 12 in. long—7 to 9 in. around and contain 16-18 rows of deep white kernels of superb quality.

1 lb. 45c; 6 lbs. \$1.70; 12 lbs. \$3.10; 100 lbs. \$23.00. Not prepaid.\*

## Gill's Early Market

### The Earliest White Sweet Corn

*This is really a remarkable corn. No very early variety hitherto has been anywhere near the size or quality of this kind.*

*The seed we offer is Northern grown here in the vicinity of our farm and is of the highest quality.*

Although this variety is not of our introduction we have raised this corn for a number of years and have improved it both in size and earliness.

Without exception this is the earliest white sweet corn yet produced and is earlier than any other sweet corn we know of except *Golden Gem*. Gill's Early Market is not only extremely early but in addition the ears are large, having 12 to 14 rows and often measure 8 inches long. The quality is very good for such an early variety.

1 lb. 40c; 6 lbs. \$1.50; 12 lbs. \$2.75; 100 lbs. \$20.00. Not prepaid.\*

## Whipple's Early (White)

### The Largest Early White Corn

Just as in the case of Whipple's Yellow, this variety has proved so popular since we introduced it in 1919 that many inferior strains are now being sold.

The seed we offer is all *Northern grown here in Monroe County* from our own carefully selected stock seed. Get your seed from the original introducer of this variety and you will be sure it is right.

1 lb. 40c; 6 lbs. \$1.50; 12 lbs. \$2.75; 100 lbs. \$20.00. Not prepaid.\*

Large yellow kernels, the most popular in many markets.					

\*We prepay freight on sweet corn if your order for vegetable seeds including sweet corn amounts to \$20.00 or more.

## DANDELION

### Large Thick Leaf—Special Strain

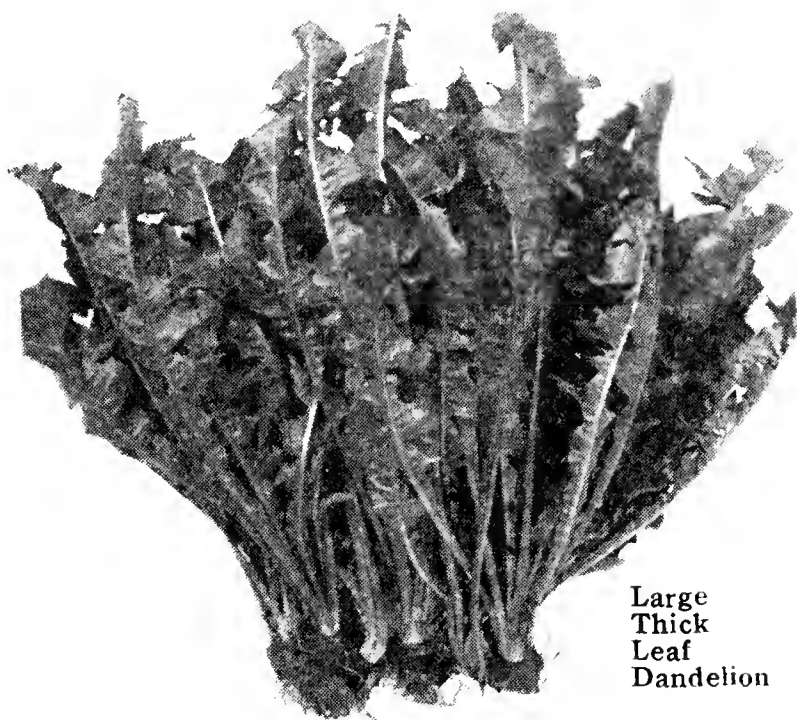

The dandelion seed which we offer is the finest Market Gardener's strain and produces large stocky thick leaved plants. New seed of high germination.

Oz. 55c;  $\frac{1}{4}$  lb. \$1.60; lb. \$5.50; 10 lbs. \$50.00.

### Italian Dandelion

*Cicoria Catalogna*. Large dark green dandelion like leaves, which are cut several times during the season for "greens." Ours is the true stock.

Oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.50.

Large  
Thick  
Leaf  
Dandelion

*Dill (Ger.)* **DILL** *Aneth (It.)*

### Long Island Mammoth

This dill is much superior to the common dill, being larger and more productive.

Oz. 10c;  $\frac{1}{4}$  lb. 20c; lb. 70c; 10 lbs. \$6.00; 100 lbs. \$55.00.

*Note—We do not sell half-ounces of seed priced at less than 30c per ounce.*

## "FRENCH ENDIVE"—Witloof Chicory

### Forcing Strain—Grown from Specially Selected Roots

This is a crop that can be grown during the winter in a dark place and with very little expense. There is a good demand for "French Endive" in the markets of all the large cities.

The seed we offer is an exceptionally fine strain, being grown from *especially selected fully developed forced heads*. This seed will give a very high percentage of perfect heads when the roots are forced. *An ounce of seed will produce 3000 to 5000 roots.*

Oz. 45c;  $\frac{1}{4}$  lb. \$1.20; lb. \$4.00.

## ENDIVE

*Endivien (Ger.)* *Endivia (It.)*

*An ounce of seed will sow about 100 feet of row; 2 to 2½ lbs. per acre.*

Seed can be sown any time from early spring to August 1, in the Northern States. For late fall market sow in July. Sow in rows 20 to 24 inches apart and thin the plants to a foot apart. To blanch, tie up the leaves with soft cord or raffia. It requires about 20 days to blanch thoroughly.

Florida Deep Heart Endive

**GREEN CURLED PANCALIER.** Best for Late Market. Pink Ribbed . . .

The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. Grown extensively by market gardeners for a late crop. This variety does best on rich soil.

**Green Curled.** . . . . .

Large leaves finely cut and curled. Green ribbed.

**Ever White Curled.** . . . . .

The leaves are dense, finely cut and curled and very light green, almost white, so blanch very quickly.

**FULL HEART BATAVIAN (Escarolle).** True Dark Green Strain. . . . .

Our strain of this variety produces heads which are tightly packed with broad dark green leaves.

**FLORIDA DEEP HEART.** . . . . .

Broad leaves, slightly curled, produces large deep heads, which blanch well in the center. One of the best varieties.

*Eier pflanze (Ger.)***EGG PLANT***Melanzani (It.)**An ounce of seed will produce about 2000 plants.***Black Beauty—Early Prolific Strain**

We consider this the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy and will produce an abundance of uniformly large handsome dark purple fruit. This is an early strain, and we recommend it highly for growers in the North.

Oz. 45c;  $\frac{1}{4}$  lb. \$1.20; lb. \$4.00.

	Oz.	$\frac{1}{4}$ lb.	lb.
BLACK BEAUTY. True Stock. See above.....	\$ .45	\$1.20	\$4.00
NEW YORK IMPROVED. Thornless.....	.45	1.20	4.00
The standard variety, having large dark purple fruit.			
Extra Early Dwarf Purple.....	.45	1.20	4.00
Very early and prolific, but not as large as above kinds.			
EARLY LONG PURPLE. Early and Prolific. Dark.....	.45	1.20	4.00
Fruit 10 to 12 inches long, not over 2 to 3 inches through. Early and is very prolific, deep purple color. This stock is very true, producing uniformly deep purple fruit.			

*Fenchel (Ger.)***FENNEL***Finocchio (It.)*

	Oz.	$\frac{1}{4}$ lb.	lb.
MAMMOTH. Large Round Bulb.....	\$ .20	\$ .60	\$2.00
This exceptionally fine strain produces large, round bulbs. Best for market.			
Florence. True Italian Stock.....	.15	.45	1.50
MOUNTAIN or Wild.....	.20	.55	1.75
This strain is finer leaved than the others, and grows with a more spreading habit. It does not form a large bulb.			

*Knoblauch (Ger.)***GARLIC***Aglia (It.)*

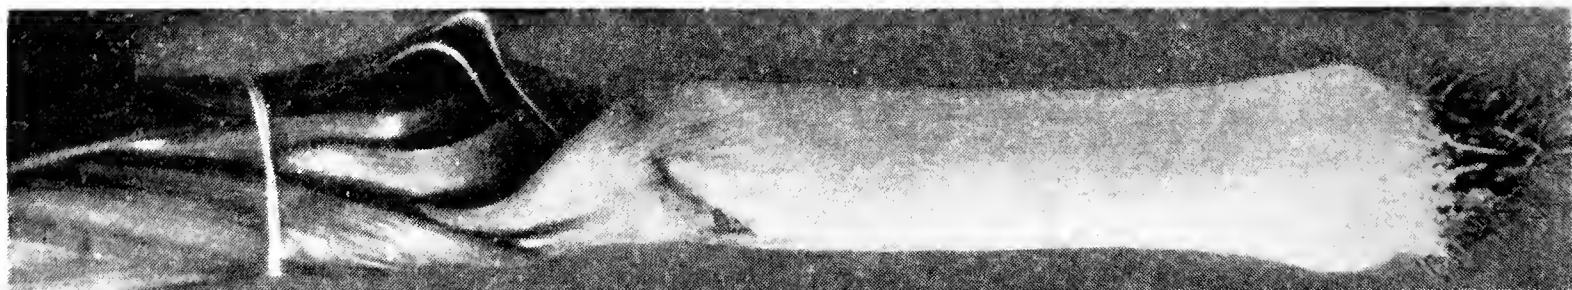

The bulbs should be separated into flakes or "cloves" and set out like onion sets. Bulbs for planting: Lb. 50c; Transportation paid. Not paid: 5 lbs. or more 40c per lb.

*Blatterkohl (Ger.)***KALE***Cavolo verdi (It.)**One pound of seed will sow about one acre of land.*

	$\frac{1}{4}$ lb.	lb.	10 lb.
DWARF CURLED or Blue Scotch.....	\$ .40	\$1.25	\$11.50
Very fine curled leaves, of dwarf habit and deep bluish green color.			
Tall Scotch Curled.....	.30	1.00	9.00
Grows 2 ft. tall with finely curled leaves. Very hardy.			
SIBERIAN. Also called "Sprouts".....	.30	1.00	9.00
Dwarf spreading, broad leaves curled only at the edges. Color blue gray. Very hardy.			

*Knollkohl (Ger.)***KOHL RABI***Cavolo rapa (It.)**An ounce of seed will sow about 200 ft. of row.*

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
EARLY WHITE VIENNA.....	\$ .20	\$ .55	\$1.75	\$16.50
The best variety for table use, very early and can be used 10 weeks after sowing. Round white bulbs.				
Early Purple Vienna.....	.20	.55	1.75	16.50
Same as above except the bulb shave a purple skin.				

*Poree (Ger.)***LEEK***Porro (It.)**An ounce of seed will sow about 200 feet of row.*

Leek—Elephant

	Oz.	$\frac{1}{4}$ lb.	lb.
ELEPHANT (New). Large stalk.....	\$ .40	\$1.15	\$3.75
This new variety is a distinct improvement over the old varieties of leek. The stalks are large and very sturdy. The bottoms are smooth and clear pearly white. The white part extends farther up the stalk than any leek we have ever seen. This is by far the best market strain of leek.			
Large American Flag. The standard variety.....	.30	.85	2.75

*Lattich (Ger.)*

LETTUCE

*Lattuga (It.)*

*An ounce of seed will sow 250 feet of row. About 2 lbs. per acre.*

Harvesting Harris' White Boston Lettuce at Elba, N. Y.

White Boston Lettuce—Special Strain

Our strain of this variety is the very best that money can buy. It is *fully equal to any strain obtainable* even at twice or three times the price we charge for the seed. You cannot get better seed no matter what you pay for it.

One important thing about the Harris' Strain of White Boston is the uniform manner in which it heads, so that there is practically no waste in cutting a crop.

More of this lettuce is being planted each year. Muck land growers in increasingly large numbers find this variety a very profitable kind to grow for a major part of their lettuce crop.

Oz. 15c; ¼ lb. 50c; lb. \$1.60; 10 lbs. \$15.00.

*"The White Boston lettuce which I have just sold is the best lettuce I ever raised."* H. T. Appleton, Beverly, Mass. July 3, 1933.

HARRIS' SPECIAL BIG BOSTON LETTUCE

The strain we offer of this popular variety is exceptionally fine. The heads are uniformly solid and compact, and stand a long time without bolting. Some of the largest growers in this country both on muck and upland use Harris' Big Boston in preference to any other stock. We are confident there is no better Big Boston. Oz. 12c; ¼ lb. 35c; lb. \$1.10; 10 lbs. \$10.00.

Grand Rapids Lettuce—Special Greenhouse Strain

Over a long period of years this strain has proved to be the very best Grand Rapids for greenhouse growing. The leaves are light green, uniformly well curled and the plants strong and sturdy

Oz. 15c; ¼ lb. 45c; 1 lb. \$1.50; 10 lbs. \$14.00.

Immense leaves. Runs up rapidly. Use for green feed for chickens.				
COS or ROMAINE—Trianon Self-folding. The best variety.....	.15	.45	1.50	14.00
Large long heads of fine quality and attractive appearance. Used for forcing under glass and for outside culture in spring and fall. This variety always finds a ready sale in the markets.				

Melone (Ger.)

**MUSKMELON or Cantaloupe**

Popone (It.)

*An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.*

Harris' Benders Surprise Melons being packed for market on the farm of Joseph D'Agostina, North Haven, Conn. Photo taken Aug. 1934.

### **Bender's Surprise Muskmelon** **Harris' Strain—Specially Selected—Northern Grown**

We have bred and grown Harris' Strain of Bender's here where our seasons are short for about fifteen years paying special attention to high quality, earliness and trueness of type. This careful selection makes the Harris' Strain much superior to the stocks of this variety usually sold.

For a number of years this melon has been a consistent money maker for progressive growers. There is no muskmelon quite equal to the Bender's for attractive appearance, fine flavor, size and keeping qualities. But be sure of your seed. There is no use buying inferior seed when Harris' Northern Grown Strain can be purchased at such a low price.

Oz. 25c; ¼ lb. 70c; 1b. \$2.25; 10 lbs. \$20.00.

*"We take pleasure in sending this order and in telling you that in our seven years of growing cantaloupes we have not found a strain of Bender melons anywhere equal to yours." Wilcox & Jones, Kirkville, N. Y. Feb. 17, 1934*

### **Golden Combination** **A New Large Muskmelon of Superb Quality**

Growers who want a very large melon of extra fine flavor should try this new kind. When well grown the fruit is very large, and with deep orange flesh of fine texture and exquisite flavor. This is one of the heaviest melons we have ever grown. The skin is heavily netted giving it a very handsome appearance.

Golden Combination is a medium early variety, ripening only a few days after the Bender. We are sure this will prove a profitable kind to grow and strongly urge our customers to try some this year.

Oz. 50c; ¼ lb. \$1.50; 1b. \$5.00.

### **Delicious Muskmelon** **The Earliest Large Melon**

This fine melon is becoming more and more popular for local sales and roadside stands.

We have grown this melon on our own farms for a number of years, carefully selecting our stock for earliness, large size and high quality.

Delicious is the earliest large melon of high quality we have ever raised, and we recommend it highly for the home market and roadside trade. It is not recommended for long distance shipping.

Oz. 25c; ¼ lb. 70c; 1b. \$2.25; 10 lbs. \$20.00.

Delicious Muskmelon

# Sugar Rock or Honey Rock

*Highest Quality for Shipping and Home Markets*

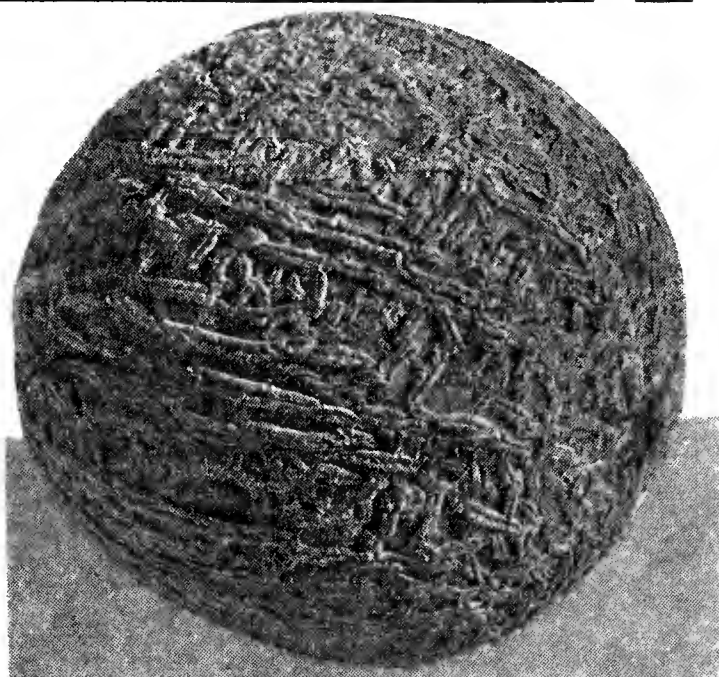

This new melon has become very popular in markets where a fine high quality melon of medium size is desired.

The melons are nearly round 5-6 inches in diameter, with light green skin which turns to pale yellow when ripe. They are hard as a rock and covered with coarse heavy netting. This enables them to stand shipping and handling without spoiling.

The flesh is thick, of fine texture and of an excellent flavor that is not surpassed in any melon we have ever eaten.

Sugar Rock is remarkable for its large yields of fine fruit, and is altogether one of the best melons we have seen in many years.

Oz. 15c; ¼ lb. 45c; lb. \$1.50; 10 lbs. \$14.00.

Sugar Rock

**ONIONS**

Cipolle (It.)

*An ounce of seed will sow 125 feet of row. It requires about 6 lbs. of seed per acre.*

Ohio Yellow Globe Onion—This field at Elba, N. Y., yielded over 1000 bu. per acre.

**Ohio Yellow Globe—Harris' True High Yielding Strain**

For consistent large yields of fine onions on muck land you cannot beat the Harris' Strain of Ohio Yellow Globe Onion. The onions grow to a large size, are of deep yellow color and globe shaped except a slight flattening on the bottom. The onions mature the same time as Yellow Globe Danvers and a week earlier than Southport Yellow Globe.

Yields of 1000 bu. per acre or more are not at all uncommon with this strain, and many growers recognize the fact that it pays them to plant Harris' Ohio Yellow Globe.

Oz. 30c;  $\frac{1}{4}$  lb. 90c; lb. \$3.15; 10 lbs. \$30.00.

### Early Yellow Globe The Best Early Yellow Onion

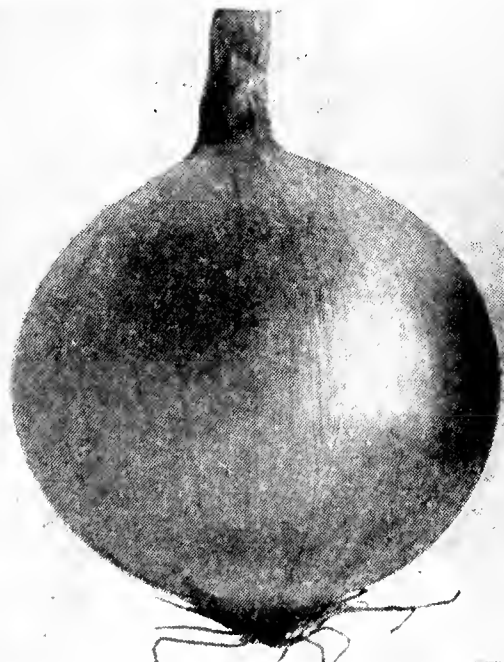

This fine new variety has quickly made an outstanding name for itself. It is not only early, but produces enormous crops of large fine looking onions that command the best prices. The onions mature at least two weeks before Yellow Globe Danvers, are globe shaped, deep yellow in color and with a thick skin which makes them handle without loss and keep well in storage. This is an especially fine onion for muck land.

Oz. 50c;  $\frac{1}{4}$  lb. \$1.30; lb. \$4.25; 10 lbs. \$40.00.

### Yellow Globe Danvers—Harris' Selected Strain The Most Popular Commercial Onion Grown

The seed of our Yellow Globe Danvers onions is grown with great care and will produce onions of uniform globe shape, deep orange color and firm tight skin. This onion will produce large crops both on muck and upland and year in and year out is a most dependable strain.

Oz. 30c;  $\frac{1}{4}$  lb. 90c; lb. \$3.15; 10 lbs. \$30.00.

Yellow Globe Danvers

**Mountain Danvers—For Early Market**

This early maturing strain of Yellow Globe onion is of fine globe shape, deep yellow color and very firm. They ripen two to three weeks earlier than Yellow Globe Danvers and have remarkable keeping qualities. They can be safely stored all winter.

We have a very fine uniform stock of this variety.

Oz. 30c;  $\frac{1}{4}$  lb. 90c; lb. \$3.15; 10 lbs. \$30.00.

**Japanese Bunching****For Early Spring and Fall Bunch Onions**

This new variety is a decided improvement over the old bunching kinds. It does not form a bulb but grows in clusters of three to five straight onions. It is a rapid grower and forms marketable mild green onions very early. When fully grown the onions are nearly an inch in diameter but retain their mild flavor.

Oz. 30c;  $\frac{1}{4}$  lb. 90c; lb. \$3.15; 10 lbs. \$30.00.

**Note:** We will be pleased to quote special prices to growers who use onion seed in large quantities.

Uncurled leaves, used for flavoring.			
HAMBURG. Long or Parsnip Rooted. Selected Stock.....	.12	.30	.90
The roots are 8 in. long parsnip-shaped, smooth and white. We have a very fine stock of this variety.			

*Erbesn (Ger.)***PEAS***Piselli (It.)*

*One pound of peas will plant 100 ft. of row. Two to five bushels per acre.*

*Note—We are now selling peas by weight only. A pound is about 1 pint, 15 lbs. equals a peck and 56 lbs. a bushel. 30 lbs. or more of one variety will be supplied at the 100 lb. rate. For prices of peas in amounts of less than 7½ lbs. (½ peck) please refer to our general catalogue.*

*\*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows:*

*If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.*

**Dwarf Alderman**

**A true large podded Alderman type with dwarf sturdy vines**

We believe this new main crop pea will have a very definite place as it is one of the best large podded dwarf peas we have ever seen. The pods are as large as Alderman, and borne in great abundance on strong sturdy vines about two feet high. This is a main crop kind maturing three or four days earlier than Alderman. These large dark green attractive pods will command good prices on any market and we urge you to try some of these peas.

Price: 7½ lbs. \$1.90; 15 lbs. \$3.45; 56 lbs. (bu.) \$11.20; 100 lbs. \$20.00. Not prepaid. See above.\*

**Laxton's Progress Peas**

**Large Podded—Medium Early**

We offer a superior stock of this excellent variety, producing uniformly heavy yields of large handsome pods.

The vines grow 15 to 18 in. high and are covered with an abundance of large deep green pods 4 to 4½ in. in length. The peas ripen so uniformly that ordinarily two pickings will clean up the crop.

The yield is large and the big handsome well filled pods find a ready sale making this variety one of the best kinds to follow the extra early sorts.

Price: 7½ lbs. \$1.80; 15 lbs. \$3.30; 56 lbs. (bu.) \$10.64; 100 lbs. \$19.00. Not prepaid. See above.\*

*"We are always pleased with results from your seeds. Last year found that the Laxton's Progress peas were just what we have been trying to find for early peas." N. K. Atwood, Lisbon, N. H. May 11, 1934*

**Mammoth Podded Extra Early Peas**

**The Most Profitable Early Kind**

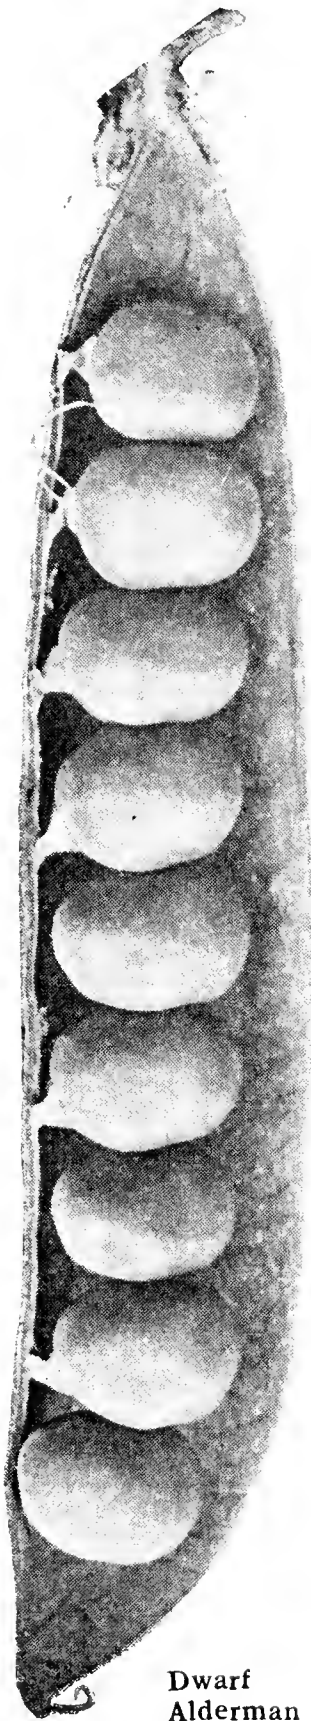

This new *large podded* pea has proved a very profitable market variety. It is very early being ready only a day or two after Alaska and First and Best. The pods are deep green in color, 4 inches long and borne in great profusion on strong vines. This pea yields well and is so hardy that it can be sown as soon as the frost is out of the ground. *The seed we offer is of the true originator's stock. Crop short.*

7½ lbs. \$1.90; 15 lbs. \$3.45; 56 lbs. (bu.) \$11.20; 100 lbs. \$20.00. Not prepaid. See above.\*

THOMAS LAXTON. (3 ft.)	1.70	3.10	9.80	17.50
Very early medium size pods. One of the standard and most profitable market varieties. Our stock is very fine.				
GRADUS, or Prosperity. (2½ ft.)	1.80	3.25	10.36	18.50
Large pods, early and of highest quality. Standard market garden variety.				
WORLD'S RECORD. (2½ ft.)	1.80	3.25	10.36	18.50
Earlier and larger podded than Gradus. Of the finest quality and a most profitable early market variety.				
LITTLE MARVEL. (15 in.)	1.90	3.45	11.20	20.00
Very prolific, matures a day or two later than Nott's Excelsior and has pods a little larger; vines stocky.				
Nott's Excelsior. (15 in.)	1.75	3.15	10.08	18.00
Early dwarf vines, medium-sized pods; one of the best early dwarf peas.				
HUNDREDFOLD (Blue Bantam or Improved Laxtonian). (20 in.)	1.80	3.30	10.64	19.00
Much like Laxtonian, but larger and better. Vines very strong and sturdy. 16 to 18 in. high. Pods 4 in. long and deep green. A fine early dwarf pea.				

Dwarf  
Alderman

## Midseason Giant—New Large Podded Main Crop Peas

We highly recommend this new variety for market gardeners and the roadside stand. The pods are large (4½ in. long) dark green and sturdy. The yield is high, the pods being borne in great numbers on strong vigorous vines 18-24 in. high.

Midseason Giant comes on between the early sorts and the late varieties and it has shown a remarkable ability to stand up and bear well in *hot dry weather*.

7½ lbs. \$1.80; 15 lbs. \$3.30; 56 lbs. (bu.) \$10.64; 100 lbs. \$19.00. Not prepaid.\*

## PEANUTS

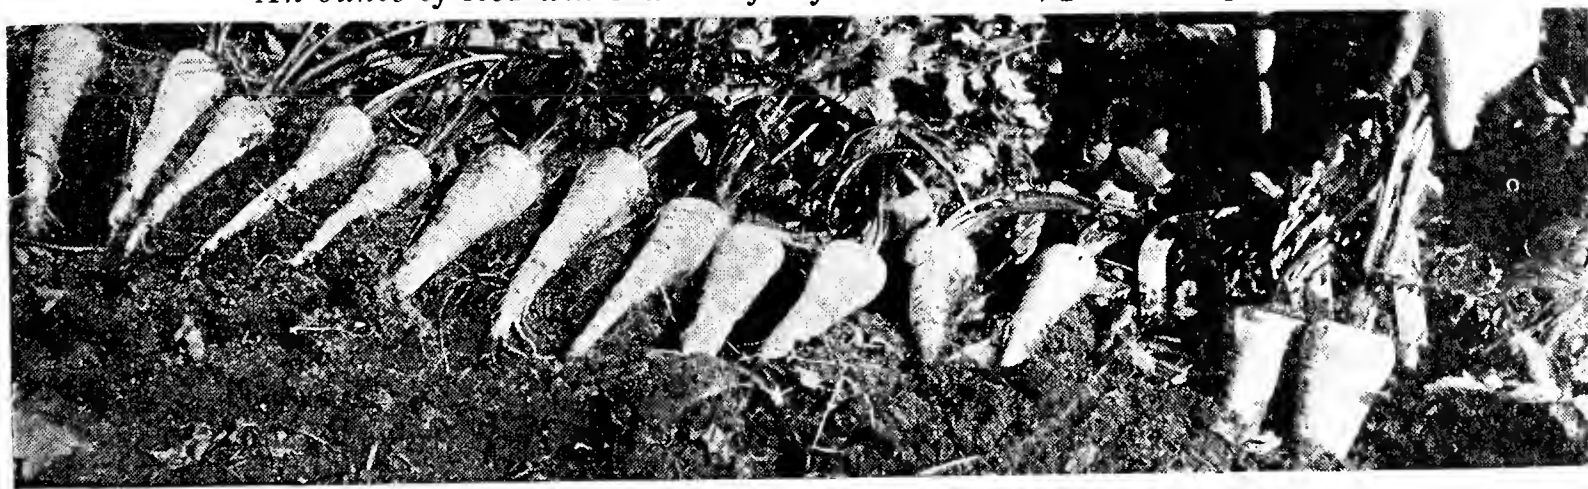

EARLY SPANISH. The Earliest Variety.....lb. 30c; 5 lbs. \$1.25; 10 lbs. \$2.00

*Pastinake* (Ger.)

## PARSNIPS

*Pastinaba* (It.)

An ounce of seed will sow 150 ft. of row. Sow 2½ to 3 lbs. per acre.

Model Parsnip. Photo shows row exactly as dug.

### Harris' Model—The Whitest Parsnip

Our customers find that this is the best parsnip that they can grow.

We have improved the old Hollow Crown parsnip by careful selection for many years until we have obtained this very fine strain which we call "Harris' Model."

The parsnips grow to a good length, but not too long. The roots are smooth, snow white, and have practically no side roots or prongs. Their whiteness is quite remarkable and gives the roots a very attractive appearance, which make them sell for highest prices.

Our seed is of our own growing from transplanted and very carefully selected roots. The seed we harvested this year is bright and plump and of good germination.

Oz. 15c; ¼ lb. 40c; lb. \$1.10; 10 lbs. \$10.00; 100 lbs. \$90.00.

LONG HOLLOW CROWN. Long smooth roots, not as uniform or white as Harris' Model.

Oz. 10c; ¼ lb. 25c; lb. 65c; 10 lbs. \$6.00; 100 lbs. \$55.00.

\*We prepay freight on peas if your order for vegetable seeds including peas amounts to \$20.00 or more.

*Pfeffer (Ger.)***PEPPERS***Peperoni (It.)**An ounce of seed will produce about 1000 plants.***Harris' Northern Grown Pepper Seed**

For a number of years we have made a specialty of growing pepper seed on our farms here in the North. Ordinarily peppers would not ripen enough fruit to pay us to grow seed here so we have developed a number of *special early varieties* that will mature and ripen an *abundance* of fruit even in our short seasons.

Several of our varieties have become so popular among market gardeners that much inferior Southern grown seed is being offered to the trade. Be sure to get Northern grown seed that will produce lots of fruit early in the season while prices are highest. Get your seed direct from the originators. We do not sell to dealers.

**Harris' "King of the North" Pepper****Extremely Large, Early and Very Prolific*****The Outstanding 1934 Introduction***

We knew we had a remarkably fine pepper in this new variety, but we did not anticipate the very enthusiastic reception which our customers who grew King of the North last year have given it. It is very gratifying to us.

The immense size, earliness and heavy yield make Harris' "King of the North" a variety that will give enormous yields of fine fruit even here in the North. The plants are medium size, branching and literally covered with fruit. The size and shape of the peppers is well shown in the photograph on this page.

The flesh is firm, mild and sweet.

We advise you to order early before our seed is sold out, as seed of this new variety cannot be purchased elsewhere.

$\frac{1}{4}$  oz. 25c; oz. 85c;  $\frac{1}{4}$  lb. \$2.85; lb. \$10.00.

Harris' "King of the North" Peppers

*"I wish to thank you for the high quality of your seed, especially the King of the North pepper. I have never seen a better crop in my life." Geo. Head, Ridgeville, Ontario, Canada. Oct. 16, 1934.*

**Harris' Improved SQUASH Pepper****Very Early and Heavy Yielder**

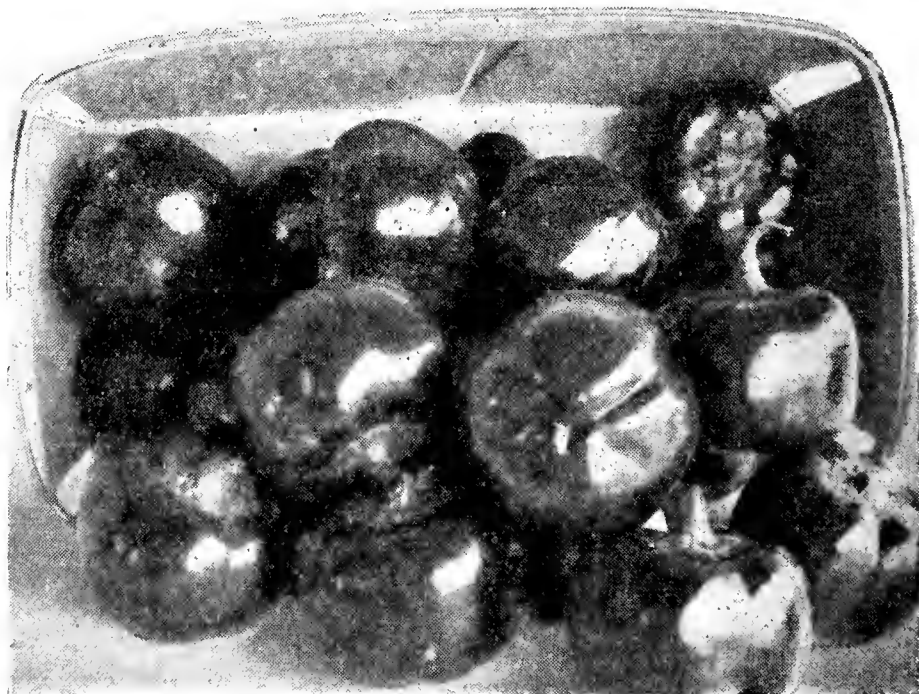

*This is the pepper which replaces the old type known as Squash, Cheese, Sunnybrook and other names.*

This new pepper is so prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen.

Until we introduced this early variety it has been almost impossible to get a squash pepper to bear enough early large fruit here in the North to make it pay to grow them in spite of the ready sale which peppers of their type find, but with Harris' Improved Squash you can get large crops of fine ripe fruit before the frost.

The fruit is early, of good size and with fine thick flesh.

Oz. 60c;  $\frac{1}{4}$  lb. \$1.75; lb. \$6.00.

Harris' Improved Squash Pepper

## Harris' Early Giant Pepper

### The Earliest Large Pepper

This large early pepper which we introduced a number of years ago is the standard large early variety for market gardeners.

Buy seed of Harris' original Northern grown strain of Early Giant Pepper rather than inferior seed grown further south.

The seed we offer is all grown under our strict control on and in the vicinity of our farm from our own carefully bred stock seed.

The true Harris' Early Giant will produce a large number of peppers about 4½ in. high and 4 in. across, and is only a week later than Harris' Earliest, the earliest pepper grown.

Oz. 60c; ¼ lb. \$1.75; lb. \$6.00.

*"If you have a sweet pepper which will outshine your Early Giant, I sure want to try it. So far as I was able to learn I had the largest field of peppers in Vermont, Harris' Early Giant. I made my first picking of green peppers July 27. Many plants had as many as 40 peppers on them when I was forced to pull them due to frost, and I had been selling them since July 27th. I won first premium at every fair which I entered them."*  
Maurice C. Crandall, Randolph, Vt. Mar. 3, 1934.

Harris' Early Giant Pepper

## Harris' Earliest—The Earliest Sweet Pepper

The seed we offer of this variety has been grown and bred here in our farm for nearly two decades, and has constantly been improved for size, earliness and productivity. It is the earliest pepper we know and an invaluable variety in the extreme northern parts of the country where other peppers will not grow.

True Northern Grown Strain: oz. 60c; ¼ lb. \$1.75; lb. \$6.00.

*"Have raised Harris' Earliest for the last 4 years and will say they are the earliest and most prolific peppers I have ever raised. I took first prize at the fair two years and also have had peppers in the market ahead of other gardeners every year."* Clarence Hilton, Vinton, Iowa. Mar. 15, 1934

## Hot Portugal—New (Large) Hot Pepper

This new pepper which we introduced in 1933 has met with enthusiastic approval by gardeners who have tried it.

The fruit is long, pointed and quite smooth for a pepper of this type. The peppers average six inches or over in length and are abundantly borne on the sturdy plant. This pepper is bright red when ripe and in addition to its large size, is just as hot as the old Giant Cayenne.

Seed grown here on Moreton Farm: ¼ oz. 20c; oz. 75c; ¼ lb. \$2.30; lb. \$8.00.

*Radies (Ger.)***RADISH***Ravanelli (It.)**¼ lb. of seed will sow about 300 ft. of row.***Early Scarlet Globe Radish  
Special Strain****Best for Forcing or Open Ground**

We can confidently state that our strain of this popular radish is the finest stock both for outdoor and greenhouse growing of any strain on the market today.

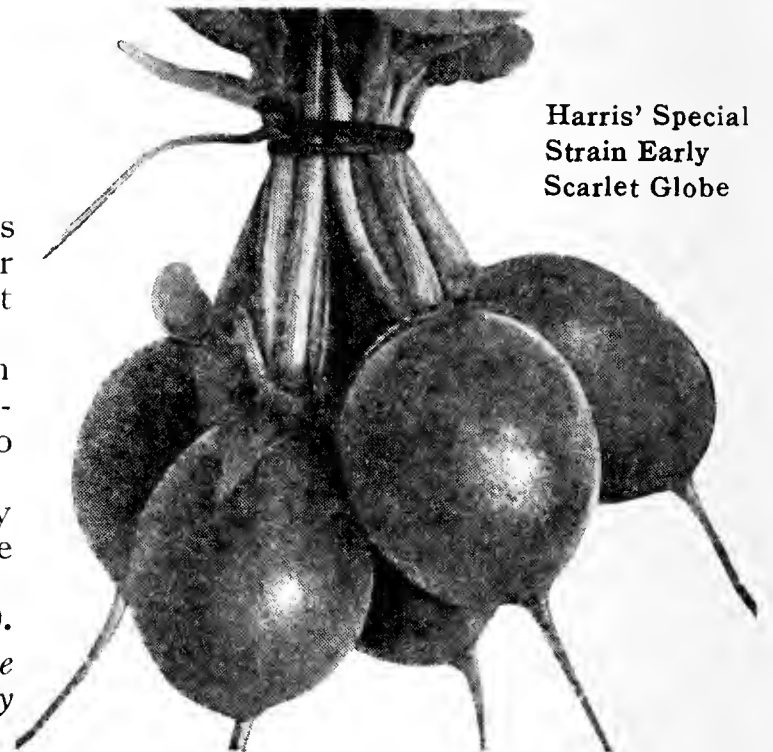

This strain is the true olive shape, and of an attractive bright red color. It is early and very uniform in maturity and has tops which do not grow too large but are just right for bunching.

The seed is very vigorous and of high vitality which is of utmost importance to the greenhouse grower.

¼ lb. 25c; lb. 65c; 10 lbs. \$6.00; 100 lbs. \$55.00.

*Note—To growers who are interested we will be glad to furnish germination figures before they buy their seed.*

*"Early Scarlet Globe is far superior to any radish we have ever grown. This spring during the drought the other varieties got pithy and didn't amount to anything, Harris' Early Scarlet Globe came through in fine shape." Alton H. Dillenbeck, Fonda, N. Y. June 28, 1934*

**Harris' Special Scarlet Forcing—(Glowing Ball)**

This radish is without peer for spring forcing. Every radish is a perfect globe, and the color a most brilliant glowing scarlet, making it the most attractive radish we have ever seen. The tops are small and the radishes form extremely early. This seed is all grown from transplanted roots. You cannot obtain a better stock at any price.

¼ lb. 30c; lb. 90c; 10 lbs. \$8.50.

*"I want the same seed, Special Scarlet Forcing as you sent me in January. While this seed did not look so good, I grew therefrom the best crop ever, and the only one I could harvest at one pulling." L. M. Westbrook, Puyallup, Wash. Mar. 30, 1934*

**Icicle Radish****Short-Topped Strain—Also Called Pearl Forcing**

In our extensive trials both outdoors and in commercial greenhouses, we find that this is the best stock of Icicle radish. The radishes are uniformly smooth and clear white, and the tops are short.

¼ lb. 25c; lb. 65c; 10 lbs. \$6.00.

Spinat (Ger.)

## SPINACH

Spinace (It.)

Sow about 20 lbs. of seed per acre in rows.

Note—At the prices here quoted spinach seed cannot be sent prepaid. Purchaser pays transportation on spinach seed except as follows:

\*If your order for vegetable seeds including spinach amounts to \$20.00 or more we will prepay the freight charges.

We shall be glad to quote special prices to growers who use large amounts of spinach. Please write. 25 lbs. or any one variety will be furnished at the 100 lb. rate.

## Long Standing Bloomsdale Spinach Best for Spring Sowing

Long Standing Bloomsdale Spinach

Our strain of Long Standing Bloomsdale is exceptionally well bred, every plant being of the true type with large well crumpled or blistered leaves of deep green color. It is the true Long Standing strain and has shown remarkable freedom from "seeders" even in the hot dry June weather we have had during the past few years.

We recommend this variety very highly for spring sowing and also late fall sowing for spring crop as it is very hardy.

Lb. 24c; 10 lbs. \$2.20; 100 lbs. \$20.00. Not prepaid. See above.\*

SPINACH continued on next page

## Viking (NEW) A 1934 All American Selection

Viking Spinach

### Early—Large Leaved— Long Standing Spinach

This new spinach is a most excellent variety for spring sowing. It closely resembles Nobel Giant Leaf in habit of growth, but the leaves are somewhat darker and more blistered. It grows very rapidly getting to cutting size early, and will continue to grow and get very large without going to seed for a long time. In fact in our spring trials "Viking" stood longer without going to seed than any other kind except "King of Denmark." The large leaves are dark green, somewhat pointed and quite well blistered. It is a very attractive spinach and will sell well in markets.

Lb. 32c; 10 lbs. \$3.00; 100 lbs. \$28.00. Not prepaid.\*

## Blight Resistant Savoy—For Fall Sowing

### True Virginia Strain

We offer the *true Virginia strain* of this spinach which is almost 100% resistant to blight. In addition the quality has been greatly improved so that the plants are uniformly well "crumpled or blistered" and the color a beautiful dark green.

This strain can be depended on to produce large crops of fine spinach in the fall where other varieties will blight and fail. We do not recommend this for spring sowing in places where blight does not ordinarily effect spinach in the spring as it does not stand as well as most other kinds.

Lb. 24c; 10 lbs. \$2.20; 100 lbs. \$20.00. Not prepaid.\*

## Nobel Giant Leaved Spinach Large, Early, Dark Green Leaves, Long Standing

This new spinach grows very rapidly and attains a large size *very early*. The yield is consequently large and the fact that it is produced *very early* makes this one of the most profitable varieties for spring sowing. The plants stand remarkably well without bolting. The leaves are of the *largest size*, nearly smooth, thick and quite deep green. We advise gardeners to try this new variety. We are sure it will prove profitable.

Lb. 26c; 10 lbs. \$2.40; 100 lbs. \$22.00. Not prepaid.\*

	NOT PREPAID*

SQUASH

Zucca (It.)

1/4 lb. will plant 50 hills; 3 to 4 lbs. of seed per acre.

Harvesting Blue Hubbard Squash for Seed on Moreton Farm.

Blue Hubbard Squash  
Harris' Selected Strain

Harris' Special strain of Blue Hubbard squash can be relied on to produce a large yield of squash that is over 99 per cent true color and of the correct shape. We are confident that we have the finest and purest stock of Blue Hubbard grown.

We have worked for several years in trueing up this stock and have been very successful in our efforts. The seed we offer is all of our own growing here on Moreton Farm.

Blue Hubbard squash are larger than the green Hubbard, of an attractive blue gray color and quite warted. They often weigh over 30 lbs. each and the yield is high.

The quality is so good that Blue Hubbard is rapidly replacing the green varieties on many markets.

Oz. 20c; 1/4 lb. 60c; lb. \$2.00; 10 lbs. \$17.50.

Quality Squash

Quality squash cannot be excelled for a small to medium size squash to sell at the roadside market.

The squash are dark green in color, 7 to 8 in. in diameter and of an attractive heart shape. The flesh is of the finest quality, being dry and sweet. Once they try it customers always come back for more of this kind.

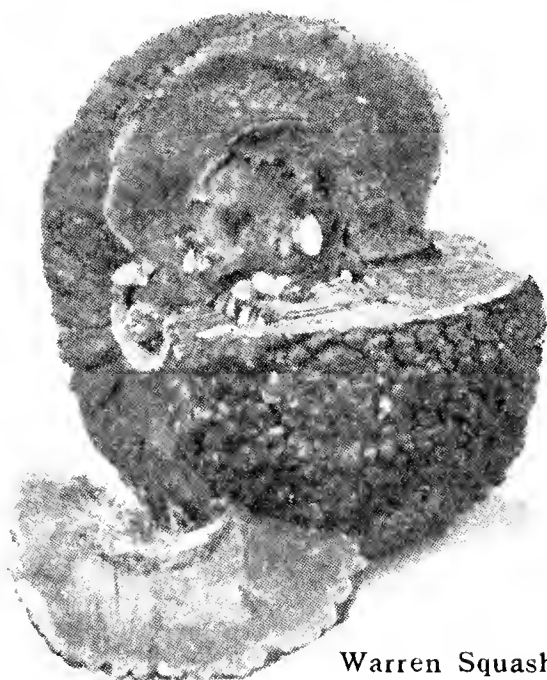

Seed of our own growing: oz. 25c; 1/4 lb. 75c; lb. \$2.50; 10 lbs. \$22.50.

WINTER SQUASH

Warren Squash

## Warren Squash

### Improved Essex Hybrid

#### New England Strain

We have an exceptionally good strain of this fine old New England squash. The squash are medium size, very uniform in shape and heavily warted. We have bred this strain with a well formed but not too large "button" at the blossom end.

The flesh is fine grained and thick (see photo on this page) and the color a beautiful deep reddish orange.

Seed of our own growing: oz. 25c;  $\frac{1}{4}$  lb. 70c; lb. \$2.25; 10 lbs. \$20.00.

### Harris' Farm Seeds

Harris' Farm and Field Seeds are of the highest type and purity. It always pays to use only the best. See pages 39-40.

## SUMMER SQUASH

$\frac{1}{4}$  lb. of seed will plant about 100 hills; 5 to 6 lbs. of seed per acre.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
Early Giant Crookneck.....	\$ .15	\$ .35	\$1.10	\$10.00
Larger than the old Bush Crookneck and equally early. Our strain is very fine.				
GIANT SUMMER STRAIGHTNECK. The Best Strain. See below	.20	.55	1.75	16.50
MAMMOTH WHITE BUSH SCALLOP also called "Cymling"...	.15	.35	1.10	10.00
Large, flat, white fruit. Early maturing and even in size.				
Early Yellow Bush Scallop.....	.15	.35	1.10	10.00
Similar to the white, except in color.				
ITALIAN VEGETABLE MARROW (Cocozele).....	.15	.40	1.35	12.50
Long mottled green fruit of high quality. We have a fine stock which will produce dark green squash of uniformly good length.				
Vegetable Marrow (English).....	.15	.40	1.25	11.50
The fruit is 8 in. to a foot long, 4 to 5 in. in diameter and of a creamy white color. It is used when half grown.				

## Giant Summer Straightneck

### Finest Market Garden Stock

The Harris' Strain of Straightneck will produce a very large per cent of straight fruit, with a thick meaty neck. We grow the seed on our own farm from carefully selected stock seed and growers find that this is the most uniform strain they can buy.

Oz. 20c;  $\frac{1}{4}$  lb. 55c; lb. \$1.75; 10 lbs. \$16.50.

Be sure your name and address is on the Order Sheet.

Giant Summer Straightneck Squash

Silver Leaf.....	.25	.80	7.50

*Liebesapfel (Ger.)*

## TOMATOES

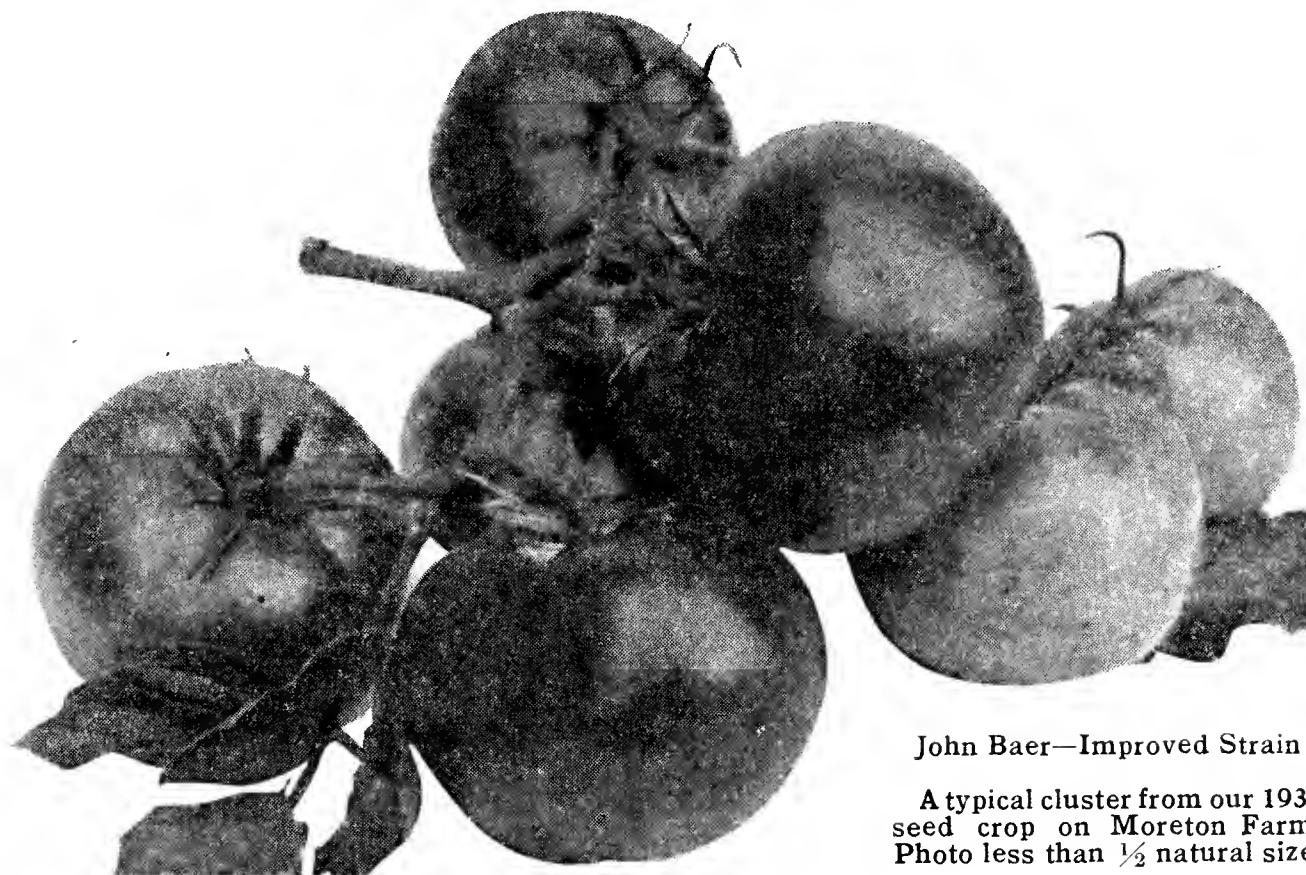

*Pomo d'oro (It.)*

*An ounce of seed will produce about 2000 plants.*

### Harris' Northern Grown Pedigree Strains

For many years we have made a specialty of growing tomato seed of the best possible quality here in the North on Moreton Farm. Our seed is grown from carefully selected pedigree stocks. Many years of careful selection combined with our short seasons have made our strains earlier and hardier than the same varieties grown farther South and in the West.

*We grow tomatoes for seed purposes only!* It costs more to grow tomato seed the way we do here in the North, but the results our customers get make it well worth while.

John Baer—Improved Strain

A typical cluster from our 1934 seed crop on Moreton Farm. Photo less than 1/2 natural size.

### John Baer—Improved Strain

This improved strain of the John Baer tomato will produce larger fruit and more tons of fine fruit to the acre than any stock we have ever seen.

The fruit is unusually large for this variety and is very smooth. It is deep red throughout and colors right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes for market or canning. Oz. 50c; 1/4 lb. \$1.35; lb. \$4.50; 5 lbs. \$20.00.

### Earliana Tomato

#### Harris' Extra Early Northern Grown Strain

We are sure that all our customers who have raised our special strain of Earliana tomato will agree with us that it is the *smoothest* and *best colored* stock of Earliana obtainable. There are other tomatoes offered under different names which are said to be earlier than Earliana, but we have found none to be any earlier and most of them are irregular in shape and not colored well.

We offer seed of *our own growing at Moreton Farm*: Oz. 50c; 1/4 lb. \$1.50; lb. \$5.00.

### Harris' Early STONE Tomato

*Produces large deep red fruit.*

By raising the seed in this northern latitude and making selections with special reference to earliness for a number of years we have obtained a strain that ripens *almost as early as Bonny Best and John Baer* and at the same time has retained the other good qualities of the old Stone.

The fruit is smooth deep red, solid, firm and very sweet. The yield is high and market gardeners with a discriminating trade will find this a very profitable tomato to raise.

Oz. 50c; 1/4 lb. \$1.30; lb. \$4.25; 5 lbs. \$18.50.

### Harris' Success Tomato

*This is one of the finest tomatoes which we know.*

The fruit is practically perfect—large, well colored, smooth, firm, and of exceptionally fine quality, being quite free from acidity when cooked. In addition it yields enormous crops, as large or larger than any other kind we raise. The fruit ripens as early as John Baer and Bonny Best, is larger and more solid.

Market gardeners will find this a very profitable main crop variety to grow. We do not know of any kind that yields larger crops of smooth handsome fruit.

Oz. 50c; 1/4 lb. \$1.35; lb. \$4.50; 5 lbs. \$20.00.

*TOMATOES continued on next page*

## Pritchard's Scarlet Topper

### Also Called "Pritchard"

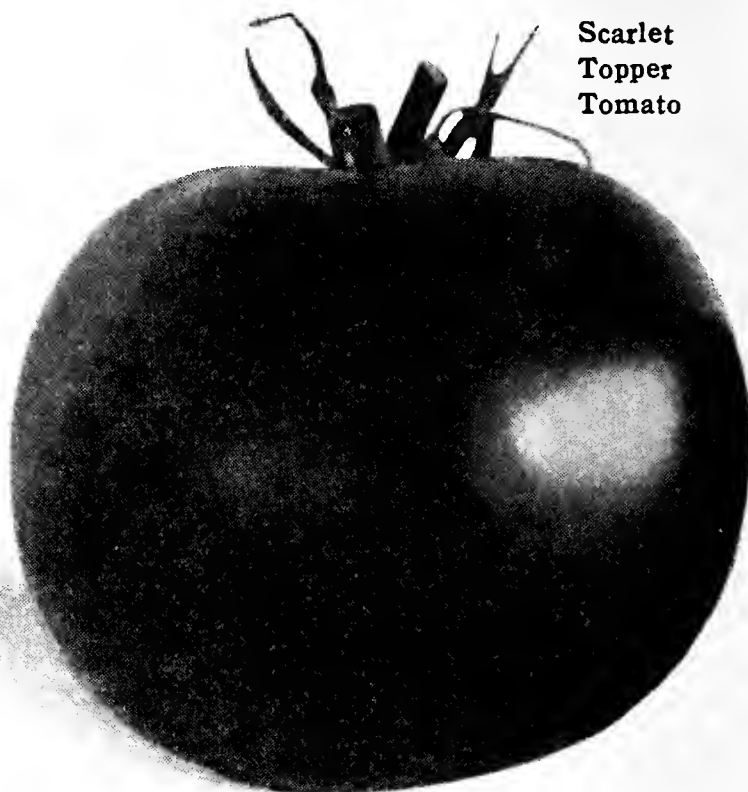

Those who saw the crop growing on our farm this summer were greatly impressed with the great abundance of fine fruit on the vines. Our stock seed has been selected from the original seed sent us by the late Dr. Pritchard of the United States Department of Agriculture who originated this variety. We are growing the seed here in the North in order to maintain the size, vigor and earliness of this variety.

The fruit is medium early, ripening right after Bonny Best. The flesh is very solid with few seed cavities and the brilliant red color goes right up to the stem. This variety is free from cracks which gives the grower a large percentage of No. 1 fruit. The quality is extra fine being mild and without acidity.

The plants are robust but not of rank growth and bear heavily.

Market Gardeners find this variety sells readily and is a very profitable one to raise. The grower for the roadside stand who has a "quality" trade will do well to make a planting of this kind as the customers will "come back for more" once they try it.

Oz. 50c;  $\frac{1}{4}$  lb. \$1.50; lb. \$5.00; 5 lbs. \$22.50.

Scarlet  
Topper  
Tomato

## Bonny Best—Harris' Special Strain

We are sure there is no finer strain of Bonny Best than the one we offer. It is all of our own growing from carefully selected plants. It will be found of the highest quality, producing the smoothest and most perfect fruit, a deep red color.

Oz. 50c;  $\frac{1}{4}$  lb. \$1.35; lb. \$4.50; 5 lbs. \$20.00.

## Canadian Tomato—An Improved Earliana

We have grown and carefully selected this improved strain of Earliana which originated in Canada. From reports of growers and our own observations we are confident that this is one of the best all around early tomato where earliness, color, size and yield are considered.

The fruit is smooth and well colored right up to the stem. It is as early as Earliana and slightly larger, yields enormous crops and the fruit is better colored than any other tomato of this class. We have a very fine strain of our own growing which we can highly recommend.

Oz. 50c;  $\frac{1}{4}$  lb. \$1.50; lb. \$5.00.

## Special Selected Globe Tomato (Pink)

### Market Gardener's Strain

We have grown a crop of this popular pink or crimson variety from a very superior Ohio market gardener's strain. It will be found unsurpassed, for color and size, producing large yields of the finest type fruit.

Oz. 50c;  $\frac{1}{4}$  lb. \$1.50; lb. \$5.00; 5 lbs. \$22.50.

## Comet Tomato

### For Greenhouse and Trellis Growing

We can now offer a fine strain of *Comet Tomato* of our own growing. The seed is saved only from the best fruit of carefully selected plants, and will be found superior for both greenhouse use and growing outside on trellises.

Pkt. 20c;  $\frac{1}{8}$  oz. 50c;  $\frac{1}{2}$  oz. \$1.65; oz. \$3.00.

## Tomato Plants

We can supply fine, sturdy, true to name plants of the most popular varieties of tomatoes. They can be furnished either ready to set out in the open ground, or, if preferred, small plants which can be grown in frames for a few weeks before setting out.

See page 38 for prices and varieties.

Comet Tomatoes

## Marglobe Tomato

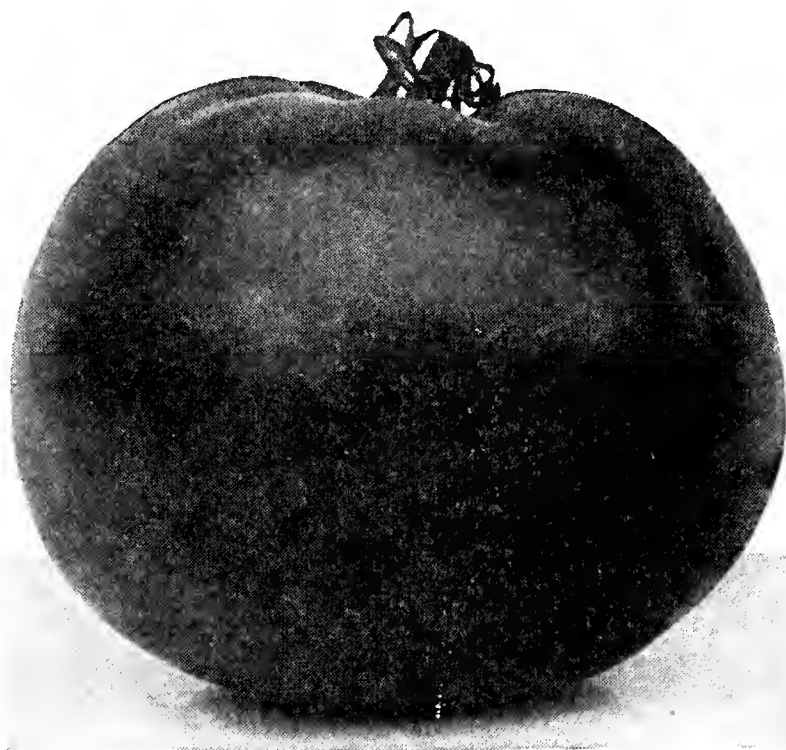

### Blight Resistant

We have grown this variety on our own farm since it was first released by the U. S. Department of Agriculture and have made careful selections each year until now we have a strain which is unsurpassed in yield, uniformity of color and size of fruit.

The fruit is large, globe shaped, perfectly smooth, deep red, very solid and firm. The vines are vigorous and healthy and do not blight. Because of this fact the vines remain green until frost or until the whole crop is matured, so the late fruit is as good as the first to ripen.

Oz. 50c; ¼ lb. \$1.35; lb. \$4.50; 5 lbs. \$20.00.

*"I had seed from you for many years. They have always proved good and true to name." C. C. Wakefield, St. Johnsbury - Vt. Mar. 15, 1934.*

Marglobe Tomato

## Large Italian Red Pear Tomato

*Pomo d'oro a Pero*

This distinct variety is three or four times as large as the ordinary Red Pear tomato. The fruit is pear shaped, three to four inches long and grows in clusters of 4 to 7 fruits. This tomato has a pleasingly distinct "flavor" and will find a ready sale among Italian buyers who use it for making "tomato paste" and canning.

Pkt. 10c; oz. 50c; ¼ lb. \$1.50; lb. \$5.00.

*Wasser-Melone (Ger.)***WATERMELON***Cocomero d'acqua (It.)**An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.*

The varieties we have here listed are all suitable for growing in the North, as they are early and in our climate will produce ripe fruit before frost, from seed sown in the open ground.

**Wonder Melon—(New)**

Because of its combination of earliness, high quality and good yield this melon should be a profitable kind to grow in the North for the local market and roadside stand.

This is the largest of the oblong varieties which can be successfully grown in the North. The melons are dark green in color with bright red flesh of very high quality. Large crops are produced even in this latitude where it is hard to raise watermelons.

	Single Bu.	Sack 150 lbs.
<b>WHITE GOLD.</b> Grow for Quality.....	\$ 1.25	\$2.75
This is the new potato which has been so widely advertised. The potatoes mature early and resemble Green Mountain in shape. The eyes are shallow and the skin remarkably smooth and white. We have never eaten a potato that is of better quality and is so snowy white and attractive when cooked. This variety will bring many repeat customers.		
<b>White Gold. Second Size.</b> .....	1.15	2.50
From same fields as above but not large enough for first size.		
<b>IRISH COBBLER. Certified Seed.</b> .....	1.35	3.00
The most popular round white early potato.		
<b>Irish Cobbler. Second Size. Certified.</b> .....	1.25	2.75
From same certified fields, but not large enough for first size.		
<b>NO. 9 or HEAVY WEIGHT. (Smooth Rural) Certified Seed.</b> .....	1.05	2.25
One of the heaviest yielding late potatoes we know of. Round, white, medium shallow eyes, vines very strong and free from disease.		
<b>GOLDEN RURAL or RURAL RUSSET. Certified Seed.</b> .....	1.00	2.00
One of the very best potatoes, almost blight-proof, vines very strong and vigorous and produce immense yields of handsome round, white potatoes. We think larger crops can be raised with this variety than any other kind.		

## STRAWBERRIES, RASPBERRIES, ETC.

The plants listed on this page are sent by express or freight at the purchaser's expense. If wanted by parcel post, sufficient postage to cover cost of mailing must be enclosed with the order.

**For complete description and prices of quantities less than listed in this catalogue please refer to our general retail catalogue. 500 plants of any one variety will be sent at the 1000 rate**

## Strawberries

	NOT PREPAID
<i>Strong fresh dug plants, guaranteed to reach the purchaser in good condition.</i>	1000
<b>DORSETT. (New) Large, Early, Heavy Yields.</b> .....	\$12.00
This and Fairfax are the best berries we have ever seen. They are early, large firm berries not only yield better but bring higher prices on the market. The quality is extra fine.	
<b>FAIRFAX. (New)</b> .....	12.00
Same type and quality but with darker berries. See our retail catalogue for full descriptions.	
<b>Premier</b> .....	7.00
On account of its high quality, earliness and large size this is one of the most profitable kinds for market. (Perfect flowers.)	
<b>Clermont</b> .....	10.00
This new early variety is very early and produces fine crops of superior berries. (Perfect.)	
<b>Culver</b> .....	10.00
Of very high quality. One of the finest berries for home markets. (Perfect flowers.)	
<b>MASTODON (Everbearing)</b> .....	13.00
This variety is recognized as outstanding among the "Everbearing" kinds.	

## Black Berries

NOT PREPAID

	250	1000
<b>Eldorado</b> .....	\$6.25	\$22.00
High quality and very productive. The leading commercial black berry.		
<b>Blowers</b> .....	6.25	22.00
Delicious fruit ripening over a long period of time, which produces very large yields.		

## Raspberries

NOT PREPAID

	250	1000
<i>Strong sturdy plants, true to name and free from disease.</i>		
<b>NEWBURGH. (New). (Red). Mosaic free. No. 1 plants 1/4" or over</b> .....	\$13.50	\$50.00
Berries are large, firm, do not crumble and of superb quality.		
<b>Newburgh. Medium size. 3/16" to 1/4"</b> .....	9.75	35.00
Slightly smaller plants from the same lot as above.		
<b>LATHAM. (Red). Mosaic resistant</b> .....	6.25	22.00
One of the best red raspberries and a standard commercial sort.		
<b>Columbian. (Purple)</b> .....	5.25	18.00
This is one of the most profitable kinds to grow.		
<b>SHUTTLEWORTH. (New). (Black). New mosaic proof</b> .....	8.25	30.00
Large black berries of superior quality.		
<b>Cumberland. (Black). 1-year</b> .....	5.75	20.00
This is the hardiest and most productive black raspberry grown. Fruit is large and handsome.		

## Grapes

NOT PREPAID

	10	100
<i>We sell only strong native grown and acclimated 2 yr. old vines.</i>		
<b>FREDONIA. (New). (Black)</b> .....	\$3.50	\$30.00
Originated and tested by the New York Experimental Station. Very early, large, handsome and of excellent quality. Vigorous and productive.		
<b>Concord. (Black)</b> .....	1.15	10.00
The old standard black grape.		
<b>Worden. (Black)</b> .....	1.15	10.00
Earlier than Concord. Large black berries of fine quality.		
<b>PORTLAND. (New) (White). The earliest grape</b> .....	2.75	25.00
The earliest grape, and one of the finest for quality, vigor and yield.		
<b>Niagara. (White)</b> .....	1.45	12.00
The standard white grape.		
<b>Diamond. (White)</b> .....	1.45	12.00
A little earlier than Niagara.		
<b>CACO. (New) (Red)</b> .....	2.75	25.00
A cross between Concord and Catawba. Large berries and early.		
<b>Brighton. (Red)</b> .....	1.45	12.00
Dark red berries of high quality. A very dependable variety.		
<b>Salem. (Red)</b> .....	1.45	12.00
Early and fine flavor.		
<b>Delaware. (Red)</b> .....	1.70	15.00
The most popular red grape. Known and appreciated everywhere.		

*{Note: 50 grape vines of one variety will be supplied at the 100 rate.}*

## Harris' SUPERFINE Lawn Grass Seed

This mixture is composed of only the purest seed of grasses best suited for lawns. This is the finest all purpose lawn grass sold. Contains 10% White Clover.

5 lbs. \$1.85; 10 lbs. \$3.50; 25 lbs. \$9.50; 100 lbs. \$32.00. Purchaser pays transportation.

### Shady Lawn Mixture

Composed of those grasses best suited for growing in shady spots. 5 lbs. \$2.50; 10 lbs. \$4.75; 25 lbs. \$11.25. Purchaser pays transportation.

### White Clover for Lawns

Highest grade seed. 5 lbs. \$2.50; 10 lbs. \$4.00; 25 lbs. \$9.50. Purchaser pays transportation.

See our General Catalogue for complete descriptions of these and other fine lawn grass mixtures.

Harris' Royal Blue Myosotis or Forget-me-not. See page 44.

## Harris' Flower Seeds

If you are a grower of Cut-Flowers, Bedding Plants, or Hardy Perennial Plants, you will find Harris' Flower Seeds the most profitable to sow.

This list includes only those varieties which are of proven value to the floriculturist, and every lot of seed has been carefully tested for germination. We *know* they are good.

**Notice**—Complete descriptions of all the varieties are given in our general catalogue, a copy of which will be sent to you in January. If you do not receive a copy, please notify us.

**Annual Flowers**, pages 41 to 47. **Hardy Perennial Flowers**, pages 48 and 49.

## Harris' New Wilt-Resistant Asters

Plant these New Wilt-Resistant Asters and be free of the "wilt" or "stem-rot," which is the most destructive Aster disease known.

The varieties we offer have all been carefully selected for their value to the cut-flower grower, and the seed is all fresh new-crop seed of high germination.

*¼ lbs. sold at 3 times the ounce price.*

### Queen of the Market Asters

The standard extra early and one which has been profitably grown for years. The flowers are full double and desirable for shipping. Start indoors.

W1201—White	Lg.		
W1202—Shell Pink	Pkt. ¼ Oz.	Oz.	
W1203—Rose	\$ .25	\$ .60	\$2.00
W1205—Purple			
W1206—Crimson			
W1200—Variety Mixture	.15	.50	1.80

### Royal Asters

The same form as American Branching but earlier.

W1301—White	Lg.		
W1302—Shell Pink	Pkt. ¼ Oz.	Oz.	
W1303—Rose	\$ .25	\$ .60	\$2.00
W1304—Lavender			
W1305—Purple			
W1306—Peach Blossom			
W1300—Variety Mixture	.15	.50	1.80

### Heart of France Aster

W1078—The most popular "red" Aster and still a favorite for the gardens. There is no other Aster to take its place. Lg. Pkt. 35c; ¼ Oz. 80c; Oz. \$3.00.

### Peerless Pink Aster

W1066—This is still the most profitable light pink Aster. Large double flowers on vigorous branching plants. Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00.

### American Branching Asters

The leading mid-season variety for all purposes.

W1601—White	Lg.		
W1602—Flesh Pink	Pkt. ¼ Oz.	Oz.	
W1603—Rose	\$ .25	\$ .60	\$2.00
W1604—Azure Blue			
W1605—Purple			
W1606—Crimson			
W1607—Peach Blossom			
W1608—Dark Violet			
W1600—Variety Mixture	.15	.50	1.80

### Crego Asters

Ostrich Feather Asters. An unusual range of colors selected from the best of the fluffy or Crego type.

W1401—White	Lg.		
W1402—Flesh Pink	Pkt. ¼ Oz.	Oz.	
W1403—Rose	\$ .25	\$ .60	\$2.00
W1404—Light Blue			
W1405—Purple			
W1406—Cattleya			
W1407—Crimson			
W1400—Variety Mixture	.15	.50	1.80

### Early Beauty Asters

A very late blooming class that are splendid for extra late cutting, after most other Asters are gone and prices are higher.

W1901—White	Lg.		
W1902—Flesh Pink	Pkt. ¼ Oz.	Oz.	
W1903—Carmine Rose	\$ .25	\$ .60	\$2.00
W1904—Azure Fairy			
W1905—Purple			
W1900—Variety Mixture	.15	.50	1.80

### Harris' Best Mixture

W1500—Harris' Best Mixture. A mixture of the eight Wilt-Resistant Asters we especially recommend on page 56 of our general catalog. Particularly good for plant trade or garden. Lg. Pkt. 15c; ¼ Oz. 50c; Oz. \$1.80.

## HARRIS' ASTERS—Continued

## Harris' Quality Asters

(Not Wilt-Resistant)

These Asters, many of them of our own growing, are all of the highest quality and are offered for the grower who is not troubled with Aster "Wilt" or "Stem-rot." The types and colors are the same as the "Wilt-Resistant" varieties.

# Pansies

## New Swiss Giants

W3705—Magnificent Mixture. No description can do justice to this new strain of Pansies. The enormous blooms measure three inches or more in diameter and the colors are unusual. Lg. Pkt. 40c;  $\frac{1}{8}$  Oz. 75c;  $\frac{1}{4}$  Oz. \$1.25; Oz. \$4.50.

W3704—Dwarf Swiss, Choice Mixture (New). More dwarf compact plants with the same immense flowers as the Magnificent Mixture. Lg. Pkt. 60c;  $\frac{1}{8}$  Oz. \$1.00;  $\frac{1}{4}$  Oz. \$1.75; Oz. \$6.00.

W3738—New Blue Swiss. A solid blue with darker blue blotch. Lg. Pkt. 40c;  $\frac{1}{8}$  Oz. 80c;  $\frac{1}{4}$  Oz. \$1.50; Oz. \$5.00.

W3739—New Red Swiss. Same type as the blue but a mahogany red color. Lg. Pkt. 40c;  $\frac{1}{8}$  Oz. 80c;  $\frac{1}{4}$  Oz. \$1.50; Oz. \$5.00.

W3736—New Yellow Swiss. Another of the type but a yellow color with black blotches. Lg. Pkt. 40c;  $\frac{1}{8}$  Oz. 80c;  $\frac{1}{4}$  Oz. \$1.50; Oz. \$5.00.

## Maple Leaf Giants

W3703—Mixed Colors. A new variety with the largest flowers of them all. Lg. Pkt. 60c;  $\frac{1}{8}$  Oz. \$1.00;  $\frac{1}{4}$  Oz. \$1.75; Oz. \$6.00.

## New Fragrant Pansies

W3706—Mixed Colors. A new large flowered variety with a decided fragrance.  $\frac{1}{2}$  Oz. 80c;  $\frac{1}{8}$  Oz. \$1.50;  $\frac{1}{8}$  Oz. \$2.50;  $\frac{1}{4}$  Oz. \$4.50; Oz. \$15.00.

## Harris' Special Mixture

W3700—We make a special point of this medium priced early flowering mixture. The flowers are large, with bright colors predominating. Lg. Pkt. 25c;  $\frac{1}{8}$  Oz. 50c;  $\frac{1}{4}$  Oz. 85c; Oz. \$3.00.

## Giant Trimardeau Pansies

W3701—Mixed Colors. A high grade mixture of choicest colors of large-flowering Pansies. Lg. Pkt. 15c;  $\frac{1}{4}$  Oz. 30c; Oz. \$1.00;  $\frac{1}{4}$  Lb. \$3.50.

## Giant Ruffled Pansies

W3702—The flowers of this mixture have fluted or ruffled petals which add much to the beauty of the wonderfully rich colors. Lg. Pkt. 25c;  $\frac{1}{8}$  Oz. 50c;  $\frac{1}{4}$  Oz. 85c; Oz. \$3.00.

## Separate Colors
